Other

Wine Rack Shelving	Elevate the wine category and drive sales	11
--------------------	---	----

Maximize Sales & Drive Labor Efficiencies With Automatic Product Fronting

- Automatically keep products fronted, organized, and shoppable
- Eliminate the perception of out-of-stocks and out-of-reach products
- Enhance the shopper experience across every shelf level, top to bottom
- Reset and restock faster with improved planogram flexibility

Convert Underutilized Shelf Space Into High-Impact Beverage Displays With Multiple Tiers

- Display more products in the same footprint to maximize shelf productivity
- Automatically keep products fronted and shopper-ready with gravity-fed rollers
- Reduce manual fronting and restocking time with automatic product advancement
- Stack multiple layers to meet your selling needs

Drive Sales and Reduce Labor with a Controlled Pusher System Designed for Delicate Items

- Protect delicate bottles with the benefit of slow-moving springs
- Eliminate manual fronting and simplify restocking
- Accommodate a range of product sizes with multiple retainer options

Drive Efficiency Through Auto-Fronting for Single Cans

- Increase pack out, maximize shelf space, and easily spot and restock empty lanes
- Adapt to virtually any shelf with two depth options and stackable lanes
- Load from the front or back to fit your specific store setup

Increase Capacity and Facings In the Cold Vault with the Slimmest Uprights In the Market

- Fit into any existing setup due to compatibility with any door manufacturer
- Support heavier loads with enhanced structural stability and safety
- Increase holding capacity and expand facings without adding floor space
- Integrate with FlexRoller to add gravity-fed automatic fronting

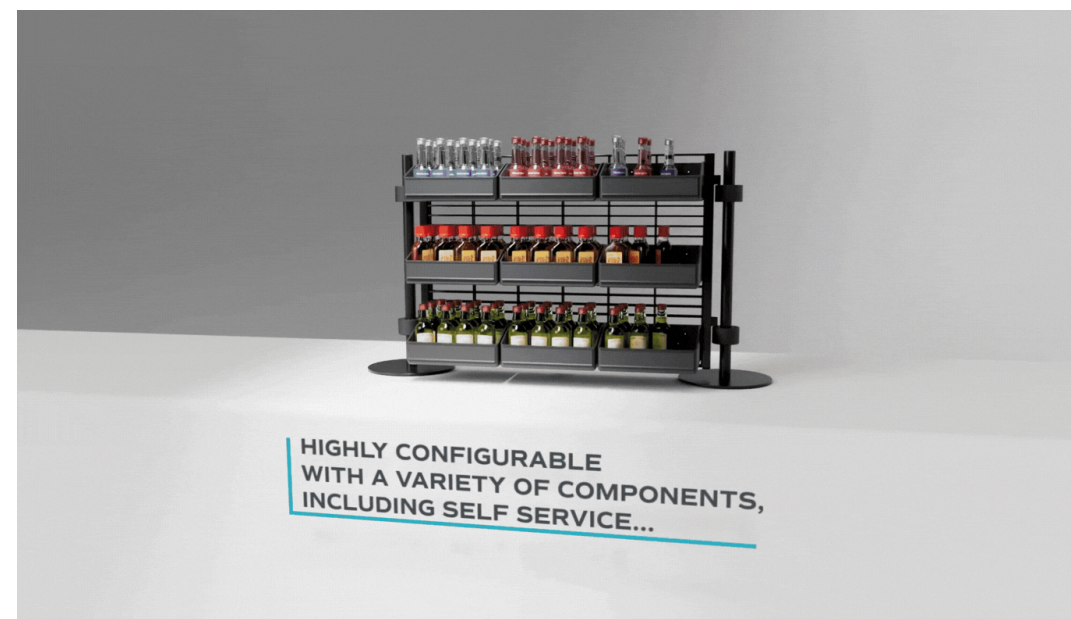

Drive High-Impact Secondary Placements with Versatile, Reusable Displays

- Update visuals any time with exchangeable graphics and signage
- Boost sales by integrating fronting solutions into any display
- Expand reach with cooler integration and cross-merchandising capabilities
- Adapt to any footprint with multiple configurations, including foldable options

Maximize Impulse Buy and Enhance Counter Space

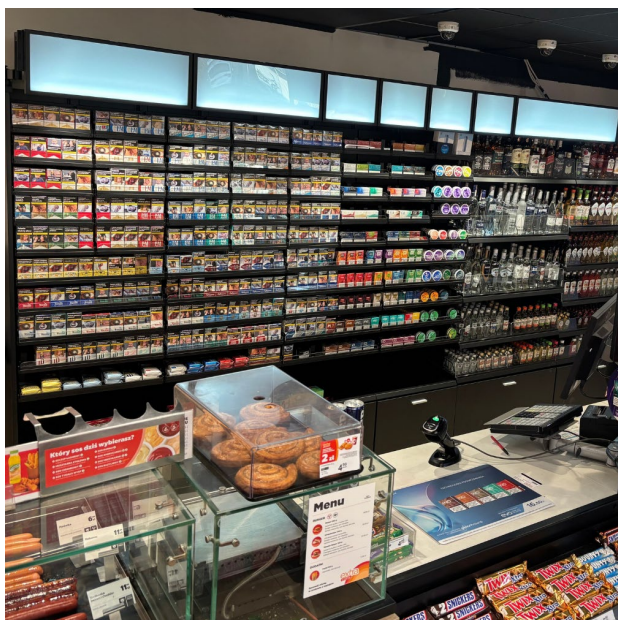

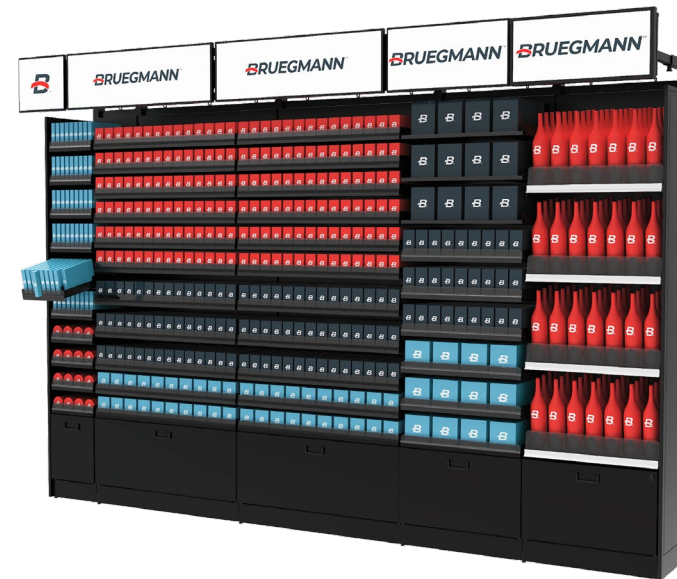

- Consolidate multiple displays into one organized, space-efficient checkout
- Customize with modular trays, baskets, peg hooks, and more for complete planogram flexibility
- Reduce theft and streamline service with optional anti-theft and full-service components

Organize, Secure and Auto-front a Large Variety of Products with a Fully Modular Backbar

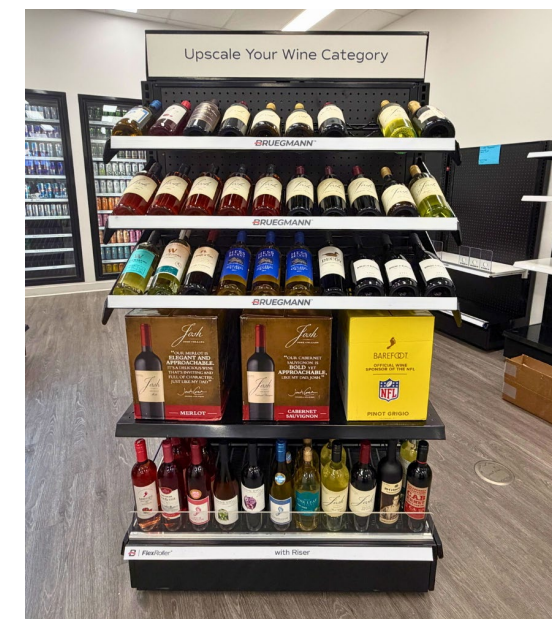

- Keep products automatically fronted and organized
- Set up quickly with minimal disruption to store operations
- Expand storage capacity and reduce shrink with optional lockable drawers
- Configure to any width with a modular system available in three standard sizes

Wine Rack Shelving

Create a Premium Wine Experience While Maximizing Every Inch of Space

- Retrofit into your existing gondolas with shelving available in multiple depths
- Create a waterfall presentation that showcases every bottle
- Improve shopper interaction by making bottles easy to reach, grab, and explore
