REFLECTIONS

*THE NEW ENGLAND  
COLLEGE OF OPTOMETRY*

*424 BEACON STREET  
BOSTON, MA 02115*

*FROM THE EDITOR . . .*

Our lives together began  
not so long ago  
with strange faces before us  
were they friend or foe?  
The question wasn't asked,  
the days drifted on  
and we got easily in tune  
to the Crossroads Song.  
We worked through the problems  
and the long stressful days,  
we survived the cold of winter  
then enjoyed the sun's sweet rays.  
The summer finally arrived  
with a blast of heat  
beach balls, lotion  
and sandals on our feet.

Our second year together  
came into view  
so we met with the Kelton Boys  
"just to have a few".  
Then fall turned to winter  
and the winter turned cold  
did someone say the answer  
was epicanthal fold?  
No time to panic  
no need to worry  
proficiencies can be passed  
as long as you hurry.  
The lights came up in Lecture Hall II  
all eyes seemed closed  
except for a few.  
We stretched and we yawned  
and we woke from our naps  
then grabbed a tall beer  
and our baseball caps.  
The weather got warm,  
they cleared out the dorm  
and shipped us off to NEEI  
the eye of the storm.  
The summer term was meant  
to further our career  
but all we could think of  
was Crossroads and ice cold beer.  
Just like the summer  
boards came and went,  
we signed new leases  
and paid outrageous rent.

Third year appeared  
with the blink of an eye  
one whole day a week  
for dresses, shirts and a tie.  
There were patients to meet  
and new preceptors to greet.  
Ten page papers  
that took all our time  
we groaned and we moaned  
and thought it a crime.  
Grand Rounds were a blur  
or was it a snore and a yawn?  
A race down the stairs  
before the free food was gone.  
The winter faded away  
and the spring came to stay  
so we met at the Crossroads  
what the hell,  
it was a warm Boston day.  
Then the day finally came  
to toast our last beers  
to friends and memories  
and shedding a few tears.

But the end of the tunnel  
holds light and hope  
and we're no longer dangling  
by that fragile, thin rope.  
With our rotations behind us  
we've got nothing to lose  
and no one can argue  
it's been one hell of a lovely cruise.

THANKS FOR THE MEMORIES —  
SHARON MAGILL

# *IN MEMORIAM*

## *DR. JOHN CARTER*

Members of The New England College of Optometry and colleagues throughout the country were deeply saddened to learn of the untimely passing of DR. JOHN CARTER, who suffered a heart attack on July 9, 1994 while teaching in South Africa.

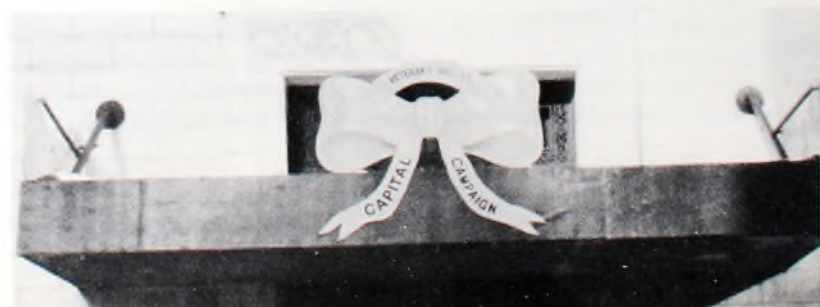

Dr. John Carter, Professor of Physiological Optics and Optometry, was a stellar member of the College faculty. He received his O.D. degree from the Pennsylvania College of Optometry in 1953 and was valedictorian of his class. He received his Masters degree in 1959 and Ph.D. degree in Physiological Optics in 1962 from Indiana University.

Prior to beginning his academic career, Professor Carter was in private practice and in the United States Air Force. In 1962, he joined the faculty of the Pennsylvania College of Optometry and came to The New England College of Optometry in 1970. Professor Carter had a long distinguished career in Optometry and Optometric education. He was currently a member of the American Academy of Optometry and served on the Scientist and Educators Admission Subcommittee. He was also a member of the American Optometric Association, the Massachusetts Society of Optometrists, the New England Council of Optometrists, and served on the board of the Bay Point Anterior Segment Symposium, and the editorial board of the NEW ENGLAND JOURNAL OF OPTOMETRY. Professor Carter has also served as President of the National Board of Examiners in Optometry, and had been a member of the Editorial Council of the AMERICAN JOURNAL OF OPTOMETRY, the Optometry Review Committee of HEW, and the NIH Committee for Health Professions Teachers Training Grants. He had been a consultant to the Retinal and Choroidal Diseases Panel, National Advisory Eye Council of NEI, and the Study Section of NIH Short-Term Training Grants of HEW.

Professor Carter's teaching responsibilities included Ocular Pharmacology, Ocular Myology, and Sensory and Motor Anomalies of the Eye and Vision. Those who were fortunate to have been taught by him admired the remarkable depth of knowledge and the dedication and caring that he brought to his students. Professor Carter was honored by the graduating class with the Foster Namias Award for excellence in academic teaching five times in the past seven years. Professor Carter set a standard as an educator and colleague which will serve as the benchmark for others for many years.

The 1994-1995 NEWENCO RedEyes Hockey Team proved to be the most successful yet in the College's history. The RedEyes advanced to the championship series of the New England Senior Mens Hockey League where they lost in a hard fought series, 2 games to 1. The third and deciding game saw the RedEyes lose a 5-4 heartbreaker at the Boston University sports arena. The RedEyes had plenty of cheering from their College fans.

Maddog lets nothing by him

The team included ODIII's JONATHON ARNEL, BRIAN BLAKE, BRUCE DORNN, and STEVE UDESKY; ODIV's BRENT CASWELL, MIKE LARSEN, DAN LEVY, MIKE MADIGAN, KERRY MOSCOVITZ; and 1995 graduate GLENN ALLOUCHE. Non-NEWENCO players included Boston Police Officers TAB BROWN and KEVIN PECKHAM. The RedEyes had strong fan support all season from faculty and students, most notably from their number one fan, SHARON MAGILL.

# VOLLEYBALL

## SPORTS TALK

The volleyball season proved to be a good escape from winter's academic warfare. There were highs and lows of the eight week season. The highs included a good excuse for a midweek celebration and a second place finish in the championship tournament. The lows included two season ending injuries to roommates Paul Vu and Brad Gollinger.

## *YEARBOOK*

### *EDITORS*

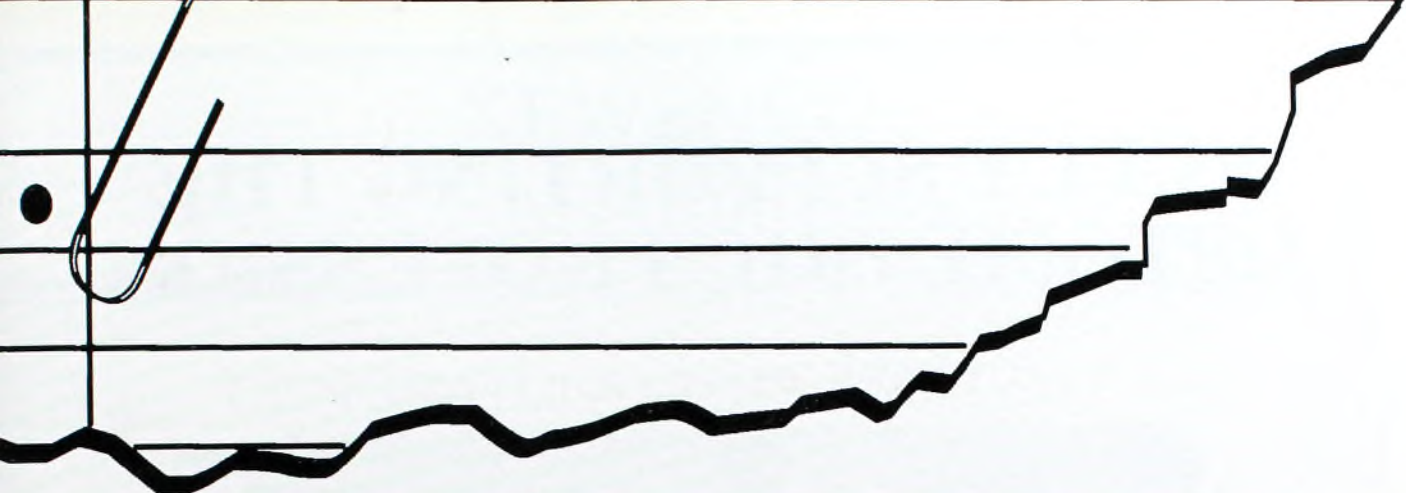

Hi gang. The organization and construction of this yearbook has been a long series of deadlines, badgering, cutting, pasting and occasional bad language. The creative thought processes of the yearbook staff were stretched to the limit and all efforts were made to include everyone in the yearbook. Actually, some classmates appear more times in the yearbook than they ever did for classes. The long haul experienced by each classmate to get to this point in time was filled with trials, tribulations, friendship and memories. The trials and tribulations we'd all rather forget so the idea of the yearbook is to capture the friendship and memories of life in Optometry school. Ten years from now everyone will most likely be caught up in their own lives of spouses, families, kids, carpools, and mortgages. But every now and then you can pull the book off the shelf, dust off the cover and relive the old days. Enjoy and always remember!

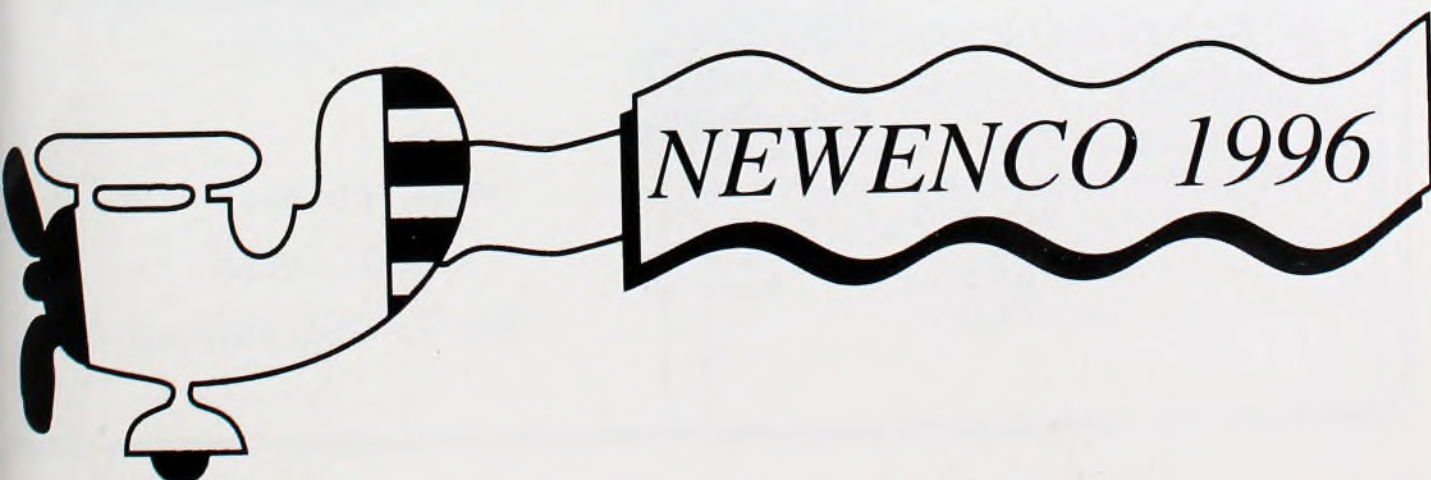

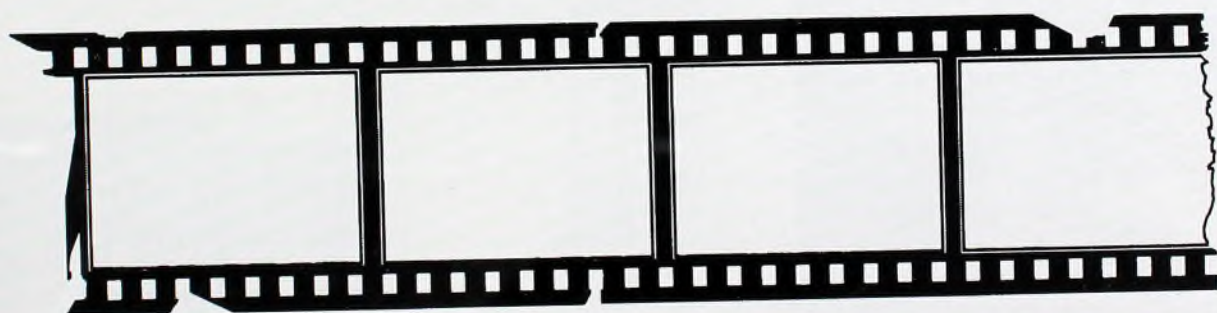

The yearbook staff would like to take a few moments to thank all the people who helped with the yearbook. Without their support, this yearbook would never have been finished by the deadline. Thanks to Jason Kaminski, John Rathjens, Karen Grucci and Karen Eng for some great pictures. Thanks to Elaine Pelletier for photography efforts. Thanks to Steve Planchet for sarcastic and comical copy. Special thanks to Michelle Bouchard who surrendered many hours to the slavery of cutting, cropping and layouts but who never quite got the hang of copy. Thanks to Sherri Magill for her moral support and the pages she layed out that we didn't end up using. And last, but certainly not least, extra thanks to Sharon's mom, Julie Nicholson, for all the hours of typing, motivation and supply of grub for the troops. Thanks again everyone!
