Introduce yourself	<p>I am Misha. Born in Latvia from ussr parents and we came to Chicago. Now I am living in Michigan. I enjoy peace of life . I feel I am chaotic and working on not seeing so ADHD about my life. Getting older feels like more things keep piling on my shoulders. I just want to feel like I did in my earlier 20s but have more knowledge to live better</p>

Do you have a project in mind at this time?	I am so open to everything. I basically focus on tattooing all the time and jump around other mediums in my spare time.
Tell us why you want to join Quarantine	I feel my intuition pulling me towards this event and that is how I've lived my life thus far. Relying on trusting myself. I am a bit of a homebody. I don't really enjoy going to bars. I really just never want to deal with the stupidity of certain personality typed that choose to be drunks. I want to always work to be healthier and more at peace.
Briefly describe your Artistic and Creative difficulties	Feels like I have a million thoughts racing through me at any given time, or it feels like absolute nothingness. My brain would usually take things to extremes and I would over focus on details. I can get lost in the small details of life pretty easily and be happy. I struggle with a formula to my creative process
What are your inner demons?	Block , Insecurity , Stagnation , Inconsistency , Style
Anything else you want us to know?	I appreciate every form of artistic expression and crafts. I have too many interests in life and not enough time it feels like.
