## What crypto fits your personality?

### Are you a BTC, a DOGE, or a SHIB?

With thousands of different kinds of crypto to choose from, you can build a portfolio that meshes with your unique interests. Here's a short guide from us to help you get started as you ask yourself what you want your crypto portfolio to say about you:

#### *I'm big on the classics.*

[Bitcoin](#) (the OG crypto) and [Ethereum](#) (the OG altcoin) have been around so long that they now share market dominance. These assets are considered classics because they are well established, time-tested in the market, and have established a track record of reliability and adoption.

#### *I'm going green, what are some eco-friendly assets I could choose?*

While all of crypto is working toward a greener future, you can try platforms that use a proof of stake protocol (a fancy way of saying users power the network by staking crypto on the blockchain instead of mining it) that don't require the same kind of energy used to

process transactions. Tokens like Solana ([SOL](#)), [Tezos](#) ([XTZ](#)), [Cardano](#) ([ADA](#)), [Algorand](#) ([ALGO](#)), [Polkadot](#) ([DOT](#)), and [Avalanche](#) ([AVAX](#)) are just a few of the eco-friendly, proof of stake tokens in the app.

## *I'm interested in the metaverse, are there platforms that are working on that?*

Try assets from platforms that are actively building into the metaverse, like The [Sandbox](#) ([SAND](#)), [Decentraland](#) ([MANA](#)), or ApeCoin ([APE](#)). Some of these tokens have already started selling digital real estate in the form of NFTs that are worth as much as actual city buildings.

## *I'm into sports, do you have anything for that?*

Take a look at [Chiliz](#) ([CHZ](#)), a platform that partners with well-known sports teams and lets them create their own branded fan tokens.

## *I like dogs.*

Us, too, seriously. [Shiba Inu Coin](#) ([SHIB](#)), a DeFi platform that works as a decentralized exchange (DEX), and uses its platform to help support good Shibs everywhere.

## *I like dogs, too, but I also like memes.*

Now we're talking. [DogeCoin](#) ([DOGE](#)), the OG meme coin (also known as "the people's crypto"), was designed with fun in mind and pays homage to both memes and our furry friends.

## *Not a huge fan of volatility but definitely want to own some crypto.*

Sounds like you're a stablecoin kind of person. Stablecoins are always priced 1-to-1 with the US dollar. We have a bunch on the app, like

[Tether \(USDT\)](#), [Multi Collateral Dai \(DAI\)](#), and [USD Coin \(USDC\)](#). And, luckily, you don't have to sacrifice gains for lack of volatility, because on Voyager you can also earn up to 9% rewards on USD Coin when you hold the monthly minimum average balance.

## Keep exploring

When it comes to your crypto potential, these are just scratching the surface. Head to the app to see what other cryptocurrencies you can use to build your dream portfolio and make it uniquely *you*.
