MYSECRETIODESIGN CAROUSELS WITH 2 WORDS

STEP #1 Copy paste my mega prompt.

- 1. Ask ChatGPT to be a prompt expert to generate carousel.
- 2. Give it an example to follow.
- 3. Add 2-5 words for your niche or product or service.

Act like a ChatGPT prompt expert. You know exactly how to use the power of NLP to generate the best results by writing prompts for ChatGPT.

I want you to generate an Instagram carousel of text + images from a ChatGPT prompt formula.

You will be turning a prompt formula like:

"Act like [desired expertise]. Write an Instagram carousel of text and images for [a targeted persona] to [get a desired result]. Use [needed tone of voice]. Add descriptive visual descriptions of what we can see on each slide. Add the text of each slide. Prioritized one unique and uncommon idea as a topic. Ban generic ideas. Ban introduction: jump right into the core of the content. Add a catchy first slide to catch people's attention."

to

"Act like a makeup artist. Write an Instagram carousel of text and images for young makeup professionals to start their professional journey from growing an online portfolio using Pinterest. Use a clear, witty & familiar tone of voice. Add descriptive visual descriptions of what we can see on each slide. Add the text of each slide. Prioritized one unique and uncommon idea as a topic. Ban generic ideas. Ban introduction: jump right into the core of the content. Add a catchy first slide to catch people's attention."

Always maintain the structure of the prompt formula and only replace the words in square brackets.

Now generate a list of 5 prompts without executing them for baby skin care.

Select a prompt.

- 1. ChatGPT will generate 5 prompts.
- 2. Select the one you prefer.
- 3. Copy paste it on ChatGPT.
