

Dearest Human,

On November 3rd, Unreality and Harmony are hosting the Stranger Party: a celebration of the most innovative minds, hands and hearts in the NFT community. Our goal is to set aside the screens for a few hours and deeply connect with friends new and old while savoring the delights of being humans, together.

You've been selected by our hosts Lady Phe0nix and Justin Bolognino as one of thirty artists and innovators to attend a very special, invite-only multi-sensory meal by famed Emilie Baltz.

To be held at the Stranger, the new venue from the Box + Sleep No More team, the meal promises to be as surreal as it is delicious.

The meal will be followed the premiere of the (N)(F)(T) docu-series teaser, then a cathartic afterparty with 400 of our closest friends.

We do hope you'll join us with your full Presence.

Kindly,

LP + JB
