

MARKIN

AAAAAAAAAAAA

ARTIST HIT
2024

Based in London, Haruna is a multifaceted creative with skills in music production, DJing, modelling and fashion styling.

His style branches from his Nigerian and Ugandan roots and his style of production is very ambient but hard-hitting. He blends his production and edits with well-known songs in the realm of Afrobeats, Amapiano, Afrohouse, Kuduro, Dembow, Alt-rap & more. His monthly show on Balamii Radio called NSOMNIA is a journey through these different genres and niches, with a strong distinctive production style that blends them all.

Haruna is a resident of Balamii and has appeared on Rinse France, Subtle and Foundation FM delivering great genre-bending sets and previewing new sounds throughout the African electronic music scene.

Haruna is combining all his creative outlets from modeling to music, set to become a very distinctive artist with great things ahead of him. He has modeled for four years prior to starting his journey, in Paris Fashion Week, London Fashion Week for brands such as Richard Quinn, Charles Jeffery and GQ Magazine.

Look out for his self-produced project coming in 2024.

Haruna is set to take stages worldwide very soon.
