Legal Disclosures

Course Ideology

- The lobbying students choose to work on may come from a liberal, conservative, social democrat, or libertarian perspective...or it may have no ideology. Whatever lobbying you choose to do, I will teach you about democracy, power, and how to bring about change.
- Importantly, there is no political indoctrination, as students develop and choose what lobbying to work on, and can change campaigns at any point in the semester.
- Civil disobedience carries significant risk, and you are recommended to avoid such actions during the semester. Find ways to work within the system (for now).
- Projects must align with the NASW code of ethics and values of the profession.

Technology Required for Class

- You'll need a computer for this class to attend live Zoom sessions (if you can't make it to class) and to interact with Canvas.
- You are also recommended to have a functional microphone, webcam, and headphones for such sessions.
- While using a cell phone or tablet will work for Canvas and Zoom, it comes at the expense of many useful features.
- If you need a laptop for this course, you can check one out from the Weber State Library.

Social Worker Code of Conduct

- Social work is a highly respected profession, and the behavior of the students should reflect the future expectations of professional work.
- As such, all social work students are subject to evaluation for professional behavior and write up for violating those expectations.
- After three violations have been made, students may be referred to a community committee to determine appropriateness for continuing in the social work program.
- The behavioral guidelines can be referenced in the Statement of Readiness and student handbook.

Cancelled Classes

- My goal is 100% attendance and excellent teaching; however, life happens.
- If I need to cancel class unexpectedly, I will inform you through Canvas announcements.
- You should set announcements up so that you can receive them as text messages, giving you as much notice as possible about class cancellations.
- I may use Canvas announcements for other class announcements.

Use of Artificial Intelligence

This course has been designed to help you develop knowledge and gain emerging skills that will be useful to you as workplace professionals. AI tools may be used as an aid in the creative

process, but with the understanding that this should be accompanied by critical thinking and reflection. Students who choose to use these tools are responsible for any errors or omissions resulting from their use. They will also be required to provide as an appendix the prompts used, the generated output, and a thoughtful reflection on the outcomes. When appropriate, students may also be asked to consider the environmental and social costs of using the tools.

AI use must be documented in an appendix to each assignment where used, using the following format:

Date	AI used	Prompts Used	Outputs Gathered	Reflections on Outputs
[MM/DD/YY]	[Name]	“whatever I typed into the system”	“Whatever the system returns to you.”	Review of the output considering accuracy, relevance, etc.

A Commitment to Academic Freedom

Higher education is predicated on the exchange, vetting, and deliberation of often controversial and unsettled ideas. In this class, for example, we explore how social workers engage questions of justice, race, gender, sexuality, ability, caste, and other politicized issues. We are not here to simply express personal opinions or repeat talking points, but rather to engage a set of ideas and research findings that have a long and complicated history and are therefore subject to ongoing debate. Committed students and scholars can, and do, disagree on the topics we will be discussing.

The syllabus has been designed to bring these controversies and disagreements to the fore. Students are also invited to introduce additional challenges in a serious and open-minded manner.

Such conversations require mutual trust and respect. It is therefore essential that students feel free to express their deeply held views and continually developing perspectives. This means ensuring that all students and faculty feel included and welcomed to engage in discussion. Because hateful or discriminatory speech and behavior degrades the possibility for a free exchange of ideas, it will not be tolerated.

Freedom of Speech

The First Amendment to the Constitution of the United States protects against government intrusion on the protected rights of individuals to express opinions, beliefs, and ideas. Expressive activity can take many forms: verbal, symbolic, posters, social media, etc. It is important to note that subject to certain limitations, including those identified below, speech with which individuals disagree, find offensive, distasteful, or wrong, and even hate speech, may still be protected speech.

As an institution of higher education, Weber State promotes the exchange of knowledge and critical thinking by creating a marketplace of ideas where speech can thrive. Weber State is an open enrollment institution, centered on access, learning, and community - themes that thrive alongside freedom of expression. This constitutionally protected right is fundamentally and intellectually essential, and although often difficult to navigate, is something to be celebrated and championed. For more information, see <https://weber.edu/legalcounsel/Speech.html>

Inclusivity

At Weber State University, we celebrate and value all individuals of any race, ethnicity, gender identity, sexual orientation, religion, marital or parental status, age, disability, veteran or military status, or other identifiers. We demonstrate our commitment by nurturing an inclusive campus and striving to honor a balance between freedom of expression and respect for others. Together, we will continually challenge ourselves and each other in an atmosphere of mutual concern, goodwill and respect.

Professionalism and Respect

The sense of human dignity and belonging of all members of the Weber State community is a necessary part of a healthy learning environment. Therefore, you should practice civil deportment, and avoid treating others in a manner that is demeaning or derisive in any respect. Diverse viewpoints and opinions are welcome in this class and we will practice the mutual deference so important in the world of work when expressing them. Thus, while I encourage you to share your opinions, you will be expected to do so in a manner that is respectful towards others.

Americans with Disability Acts

If you require accommodations or services due to a disability, please contact [Disability Services](#) (DS) in room 181 of the Student Services Center (Ogden campus) or room 262 Building D2 (Davis Campus). Disability Services can arrange to provide course materials (including this syllabus) in alternative formats upon request.

Core Beliefs

According to the student code (PPM 6-22), you are to determine before the last day to drop courses without penalty if any course requirements conflict with your core beliefs. If after reading the syllabus and class program you expect such a conflict, you should consider withdrawing from the class. If you find this solution unworkable, you may request a resolution from the instructor. This policy does not obligate the instructor to grant your request, except in those cases when a denial would be arbitrary and capricious or illegal. You need to make this request to the instructor in writing and with a copy to the department chair. Your request must explain the burden the class requirement would place on your beliefs. If you are not satisfied with the instructor's resolution, you can voice a complaint, petition for a change, or make an appeal through the [student petition, complaints & grievances process](#).

Harassment, Discrimination, and Sexual Misconduct

Weber State University is committed to providing an environment free from harassment and other forms of discrimination based upon race, color, national origin, pregnancy, and pregnancy-related conditions such as childbirth, false pregnancy, miscarriage, abortion, or related conditions, (including recovery), genetics, disability (see PPM 3-34), religion, sex, sexual orientation, gender identity/expression, veteran, active military status, age (over 40 in employment discrimination), and other classifications protected by law. If you have questions regarding the university's policy against discrimination and harassment, or if you have questions about reporting discrimination or harassment, you may contact the university's AA/EO office

FERPA Rights

Under the Family Educational Rights and Privacy Act (FERPA), the federal law that governs the release of and access to student educational records, certain rights are given to students related to the management of their records. These rights include, 1) the right to inspect and review your educational record, 2) the right to request an amendment of your education record if you believe that it is inaccurate or misleading, and 3) the right to consent to the disclosure of personally identifiable information contained in your educational record, except to the extent that FERPA authorizes disclosure without consent.

The following directory items may be available to the public, if requested, unless otherwise deemed confidential by the student:

- o Name, address, and telephone number
- o Dates of attendance
- o Major (program of study)

Student Responsibilities

As a student at Weber State University, you are expected to act responsibly and appropriately as you attend a public institution of higher education. When you enroll as a student at WSU, you agree to abide by the standards of appropriate and responsible behavior outlined in the student code (PPM 6-22). This applies to your behavior as an individual when participating in group settings on campus and if you represent Weber State University at an off-campus event. Choosing to ignore these important student responsibilities could result in university disciplinary actions.

Threatening Behaviors

Threatening behavior is deliberate, hostile conduct which would cause a person to fear injury or harm. It includes aggressive actions such as yelling, kicking, insulting, demeaning, bullying, intimidating, pounding on desks, slamming doors, blocking or cornering, and issuing threatening or disparaging voice-mails, e-mails, or other written intimidating remarks.

Threatening behavior will not be tolerated in this class. If you've been exposed to threatening behavior, contact the office of the Dean of Students.

Academic Honesty

As part of the student code (PPM 6-22), you are expected to be academically honest and ethical. Academic dishonesty includes cheating, plagiarism, collusion, falsification, giving, selling, or receiving unauthorized course or test information, using an unlawful resource, or copyright infringement (PPM 6-22.6.4.2). Academic dishonesty can have serious consequences including a verbal or written warning, reprimand, probation, suspension, expulsion, and additional sanctions included in PPM 6-22.6.5.

Recording

The university prohibits students from recording class lectures unless the faculty member grants explicit permission (PPM 6-22.6.6). Any lectures recorded and posted on Canvas or shared to your Weber State University student email are for the exclusive use of students enrolled in the class and may not be shared without previous authorization. Violations will be referred to the Dean of Students for adjudication under the student code (PPM 6-22).

Video Conferencing

If the class needs to be held virtually due to campus closure, sickness, or any other appropriate reason, you will receive a notification from your instructor via Canvas. Remember that attendance is just as important virtually as in the face-to-face option. During video conferencing, be present, avoid multitasking, and wait for your turn to speak and/or contribute to the class discussion. Be courteous and respectful of your classmates. As stated in the class recording policy, you may not record any segments and/or the full class unless you have authorization from the instructor. If you do not have the technology necessary for video conferencing, contact your instructor as soon as possible. This policy applies also to virtual office hours.

You Made It This Far...

That means you can finish. Many of us, myself included, experience imposter-phenomenon where we don't feel like we deserve our position or are afraid of being found out as an intellectual fraud. This often happens when we give ourselves unrealistic standards or feel overwhelmed. It can also happen if we experience stereotype threat, where the fear of acting like a stereotype of your group might make you overthink and start acting like the stereotype. These are normal experiences in college, but they are a form of unnecessary suffering. The

reality is **you belong here**. Consider all you've accomplished to get here. Consider how much work you've put into your education. There is no reason that person can't make it through this semester. You got this, and when you think you don't, you have your professor and the rest of the class to support you. In this class you are welcome and encouraged to be yourself, flaws and all. The goal in this class is not perfection, but progress. Give up on perfection. It's boring anyway.

Attendance (140 Points)

Purpose	To keep a record of your presence in class, for you to hear from your classmates, for you to contribute to classroom dynamics, and to build your network with your peers.
Task	Show up to class Or Respond to the attendance discussions.
Criteria	<p>Showing up and speaking your truth is enough. Otherwise, responses to the attendance discussions should be thoughtful.</p> <p>The attendance discussions do have due dates, but if you attend class you do not have to respond to them.</p> <p>If you don't like having a list of overdue assignments in canvas, you can dismiss them by simply replying “in class.”</p>

	<p>Note that the attendance discussions do not have points associated with them and all responses will get a 0.</p> <p>Zoom is offered as an emergency option for people to attend online when life happens, however, to be admitted to the Zoom, you must have sent an email letting me know you will need it before class.</p> <p>There will be days and situations where missing class will not have an option to make it up.</p>
