

PETER STUTZ AIA, LEED AP

PROJECT MANAGER
SENIOR ASSOCIATE

Peter is a licensed architect with more than 18 years of experience in commercial and residential high-rise design from concept through construction administration, including commercial office towers, residential condominiums, and mixed-use developments. He has an in-depth understanding of the complexities and unique challenges associated with vertical construction. Peter has strong organizational skills and has more than a decade of proven experience leading and managing multi-disciplinary teams to meet budget and schedule goals for projects – providing effective coordination among stakeholders, contractors, consultants, and clients.

His most recent work includes the 30 Van Ness, a 30-story residential and office tower in downtown San Francisco, 520 Mateo Street, a 35-story residential, 6-story, and retail podium in LA's Art District, as well as the 52-story office building in downtown Chicago, leading a team of over 40 consultants through all phases of design construction.
