**YOUR SCORE: 150**

Typically, test takers are able to create a relevant response when asked to express an opinion or respond to a complicated request. However, at least part of the time, the reasons for, or explanations of, the opinion are unclear to a listener. This may be because of the following:

- unclear pronunciation or inappropriate intonation or stress when the speaker must create language
- mistakes in grammar
- a limited range of vocabulary

Most of the time, test takers can answer questions and give basic information. However, sometimes their responses are difficult to understand or interpret.

When reading aloud, test takers are intelligible.

Test takers should be able to perform some of the following communication tasks:

- Talk about their future goals
- Describe a familiar work-related process
- Explain company history and rules

**PRONUNCIATION: MEDIUM**
