To both of you. That's a pretty powerful message from the chief of one of the most respected law enforcement agencies in the country. This is an important moment for what was an exhausting process.

Nobody but the two of you truly know what this entailed. Saly-wow and thank you. GI with all you've been through what a full circle moment.

There's a lot of people that will claim to be on the right side of history with this but weren't even close. Be very proud and as your friend I can't thank both of you enough

Oh and I forgot my favorite phrase

PB

"My friends aren't losers"
