Internship / Working Student

SOCIAL MEDIA · CONTENT · MARKETING

Make an AI company impossible to ignore.

Mira OS by deAI Labs is real, working tech that companies need — they just haven't all heard of us yet. That's where you come in: own how a fast-moving AI startup shows up online, in German and English.

A EVERYTHING IT TAKES

- **Own LinkedIn:** build on our 15k+ audience — plan, post, engage, grow.
- **Help pick the next channels:** newsletter, YouTube & short-form video, events — your call counts.
- **Make content:** posts, carousels, graphics, simple video — in DE & EN.
- **Turn moments into content:** founder takes, product updates, talks, behind-the-scenes.
- **Measure & iterate:** read the analytics, double down on what actually works.

B WHAT YOU BRING

- Studying marketing, comms, media or design — or just genuinely good at it.
- A feel for content that stops the scroll.
- Hands-on with at least one tool (Canva, CapCut, Figma, etc.).
- Strong writing in German and English.
- Ideas, taste, and the drive to actually ship them.

WHY DEAI LABS

15k+ already there

Build on our existing LinkedIn following — your work is seen from day one.

Shape the channels

Help decide where we show up next — not just run a fixed plan.

Creative freedom

Founder-level access and real room to run with your ideas.

START

Anytime — you pick the date

DURATION

3 months min · 6 ideal

WHERE

Munich · hybrid

HOW TO APPLY

sarah.gottwald@deai-labs.com

Working students welcome. Send your CV and, if you have it, a link or two to things you've made.
