SALVEO is the representative brand of MESACOSA CO., LTD.

MESACOSA CO., LTD.

MESACOSA Aromatherapy

Since its establishment in 2005 as a company specializing in aromatherapy, Mesacosa has been dedicated to training professionals through its aromatherapy academy, while also focusing on product planning, development, and consulting in the field of aromatherapy. In 2019, Mesacosa introduced its own brand, SALVEO, and began exporting products to European markets.

100% Natural Ingredients

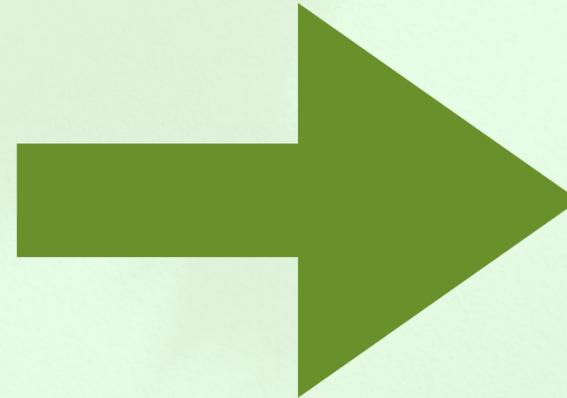

SALVEO products are crafted without synthetic preservatives or artificial chemical ingredients, using only 100% natural components, with more than 75% of the raw materials being organic certified. Additionally, we prioritize small-batch production over mass production to ensure the freshness and quality of every product.

MESACOSA CO., LTD.

Rooted in the principles of aromatherapy and Traditional Korean Medicine, we create skincare products using only natural ingredients.

Mesacosa has concentrated on expert training, research and development, product innovation, securing a reliable supply chain for natural materials, and obtaining international certifications.

MESACOSA CO., LTD.

CEO Bok Young-ok first earned a diploma in clinical aromatherapy and later obtained a BSc in Psychology from the University of Plymouth, UK. Drawing on her expertise and research from a master's in Cosmetology and a doctorate in Traditional Korean Medicine, she continues to develop skincare cosmetics that integrate Western aromatherapy with Korean Traditional Medicine.

Gwangyang Prunus mume blossom extract, rich in polyphenols and flavonoids, offers antioxidant properties and strengthens collagen cells (Patent No.: 10-2019-0121120). Mesacosa holds a separate patent for the process of manufacturing natural cosmetics utilizing this extract (Patent No.: 10-2613485).
