Exhibition Zones

Global Exhibition Zone	• Innovative companies that converge the latest trends and technologies • KEPCO Pavilion	
Startup Investment Zone	• 100 climate tech companies • Investment briefings • IR pitches by Startups	
Invention Fair	• Exhibition of internal and external patented technologies • Technology commercialization consulting	

Conferences

		
Energy Leaders Summit	Programs for Startups	World Knowledge Forum
A platform for energy sector leaders to discuss power grid operation issues in the AI area	A practical business forum connecting startups and investors through diverse programs	Enhancing shared understanding of the future industrial ecosystem where technology, economy, and policy converge

BIXPO 2025 Key Results

BIXPO is enhancing its Startup Investment Zone and matching startups & investors to foster a dynamic startup ecosystem for the future energy industry. It provides a business platform that directly connects promising energy startups with VCs and ACs, enabling technological innovation to translate into real investment and collaboration.
