

Strategic Steel Purchasing Partner

SC.MIN INNOVATION

small but competitive with strength

[innovation-;]

2011

SC.MIN INNOVATION established 2011 by 3 co-founders, who had experience in steel industry at POSCO INTERNATIONAL

2015

Opened overseas office in Mexico.

2017

Awarded 8milon won export tower from Korean government

2018

Opened it's first branch office in Europe to expand European market
2nd largest export records in Europe among DONG BU's trading partners

2020

Established sales branch office in Vienna, Austria
Strategic partnership with NUCOR TRADING, Swiss

Business Area in Europe

- ★ Base : Austria, Croatia, Hungary(new)
- Country : Austria, CZ, Hungary, Romania, Slovenia, Croatia, Bosnia, Serbia
Türkiye (by H/Q)
- Area : Construction, Machinery, Home appliance, Automotive
- Item : Aluzinc, Alusi, EGI, GI, PPGI, PPGL, PPAL

- ★ Base : Swiss, UK, Italy, Poland
- Country : Germany, Swiss, Italy, UK, Denmark, Sweden, Poland
- Area : Construction, Machinery, Home appliance, Automotive
- Item : Aluzinc, Alusi, EGI, GI, PPGI, PPGL

World Wide

From the world-wide branches and partners, we know the price and production trend all over the worlds, US, UK, China, India, Twain, Vietnam, Turkey

Specific Items

SC.MIN Innovation has a great strength on flat steels mainly from South Korea to the European countries for solid Supply Chain Management

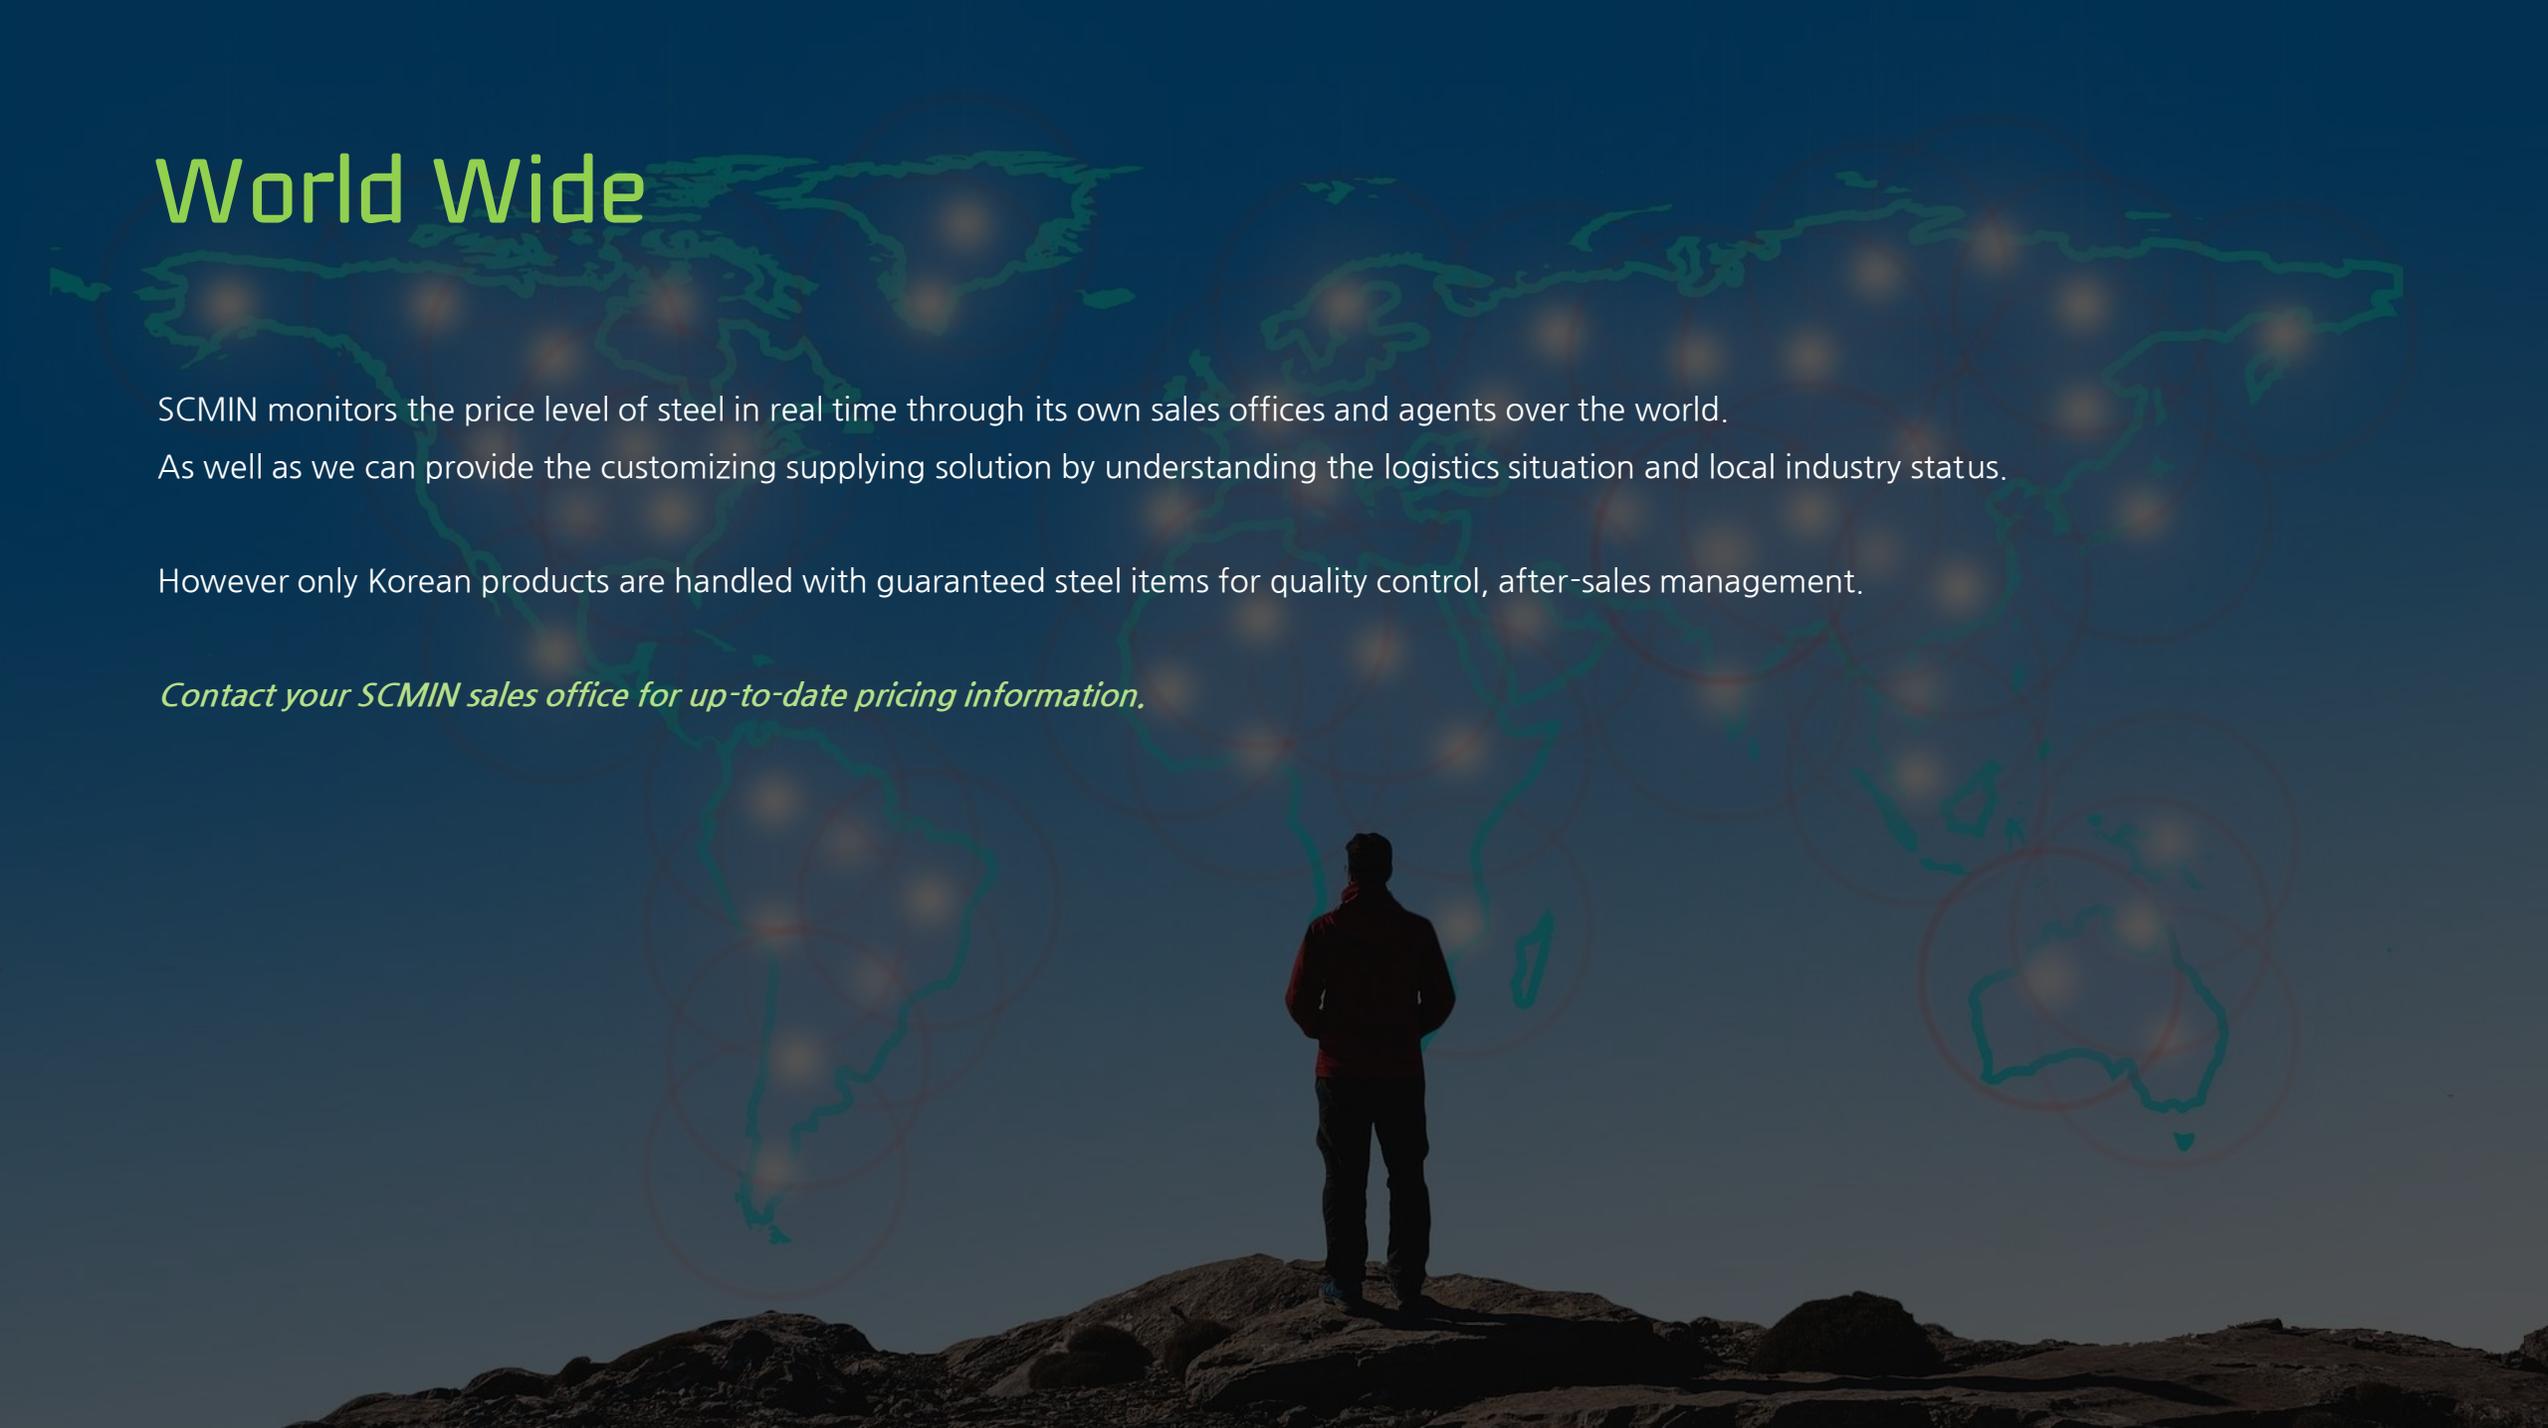

- Cold Rolled
- Coated Materials
- Painted Materials

Think Ahead

Customer's success is SC.MIN Innovation's first priority. We suggest the best way to procure materials and timing for our customers in terms of nature friendly, and anti bacteria

Guide and support for responding to 'CBAM' related to carbon emissions

World Wide

A person in a dark jacket stands on a rocky outcrop, looking out over a world map. The map is rendered in a glowing green and blue color scheme against a dark blue background. The person is silhouetted against the map, which shows the outlines of continents and oceans.

SCMIN monitors the price level of steel in real time through its own sales offices and agents over the world.

As well as we can provide the customizing supplying solution by understanding the logistics situation and local industry status.

However only Korean products are handled with guaranteed steel items for quality control, after-sales management.

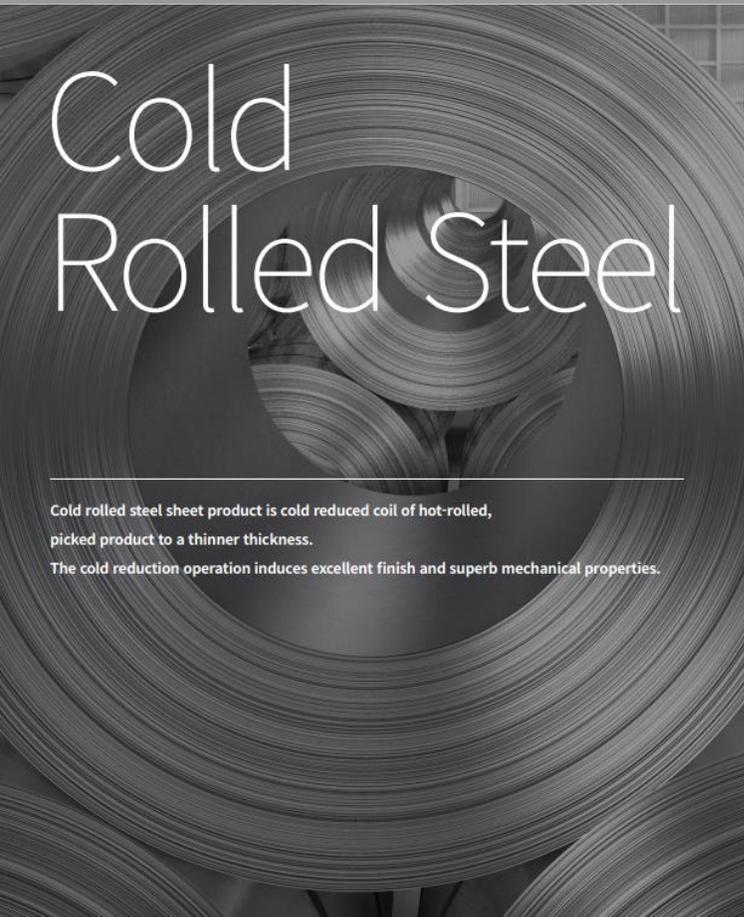

Contact your SCMIN sales office for up-to-date pricing information.

Specific Items, Various Sourcing

The strength of SC.MIN Innovation is that it focuses on sourcing of specific items, and strategically has various sourcing places in Korea, so it is supplying the best products at the best prices.

The main items are Cold Roll (CR/HR PO), Prepainted Steel (PPGI/PPGL/PRINTECH), and Coated Steel (AZ/ZM/AS/EGI).

These products are mainly used in Europe for high-end building materials, container manufacturing, automobiles and home appliances.

Cold Rolled Steel

Cold rolled steel sheet product is cold reduced coil of hot-rolled, pickled product to a thinner thickness.
The cold reduction operation induces excellent finish and superb mechanical properties.

Cold Rolled Products Business Unit

GI/SGL/EGI/ALCOT

Think Ahead

SC.MIN Innovation looks forward to the future together with our valuable customers.

Eco-friendly issues becomes an important basis for purchasing and selling steel products for the current market and future as well.

SC.MIN Innovation supports to improve the added value of buyers by exporting products from manufacturers that have obtained EPD certification.

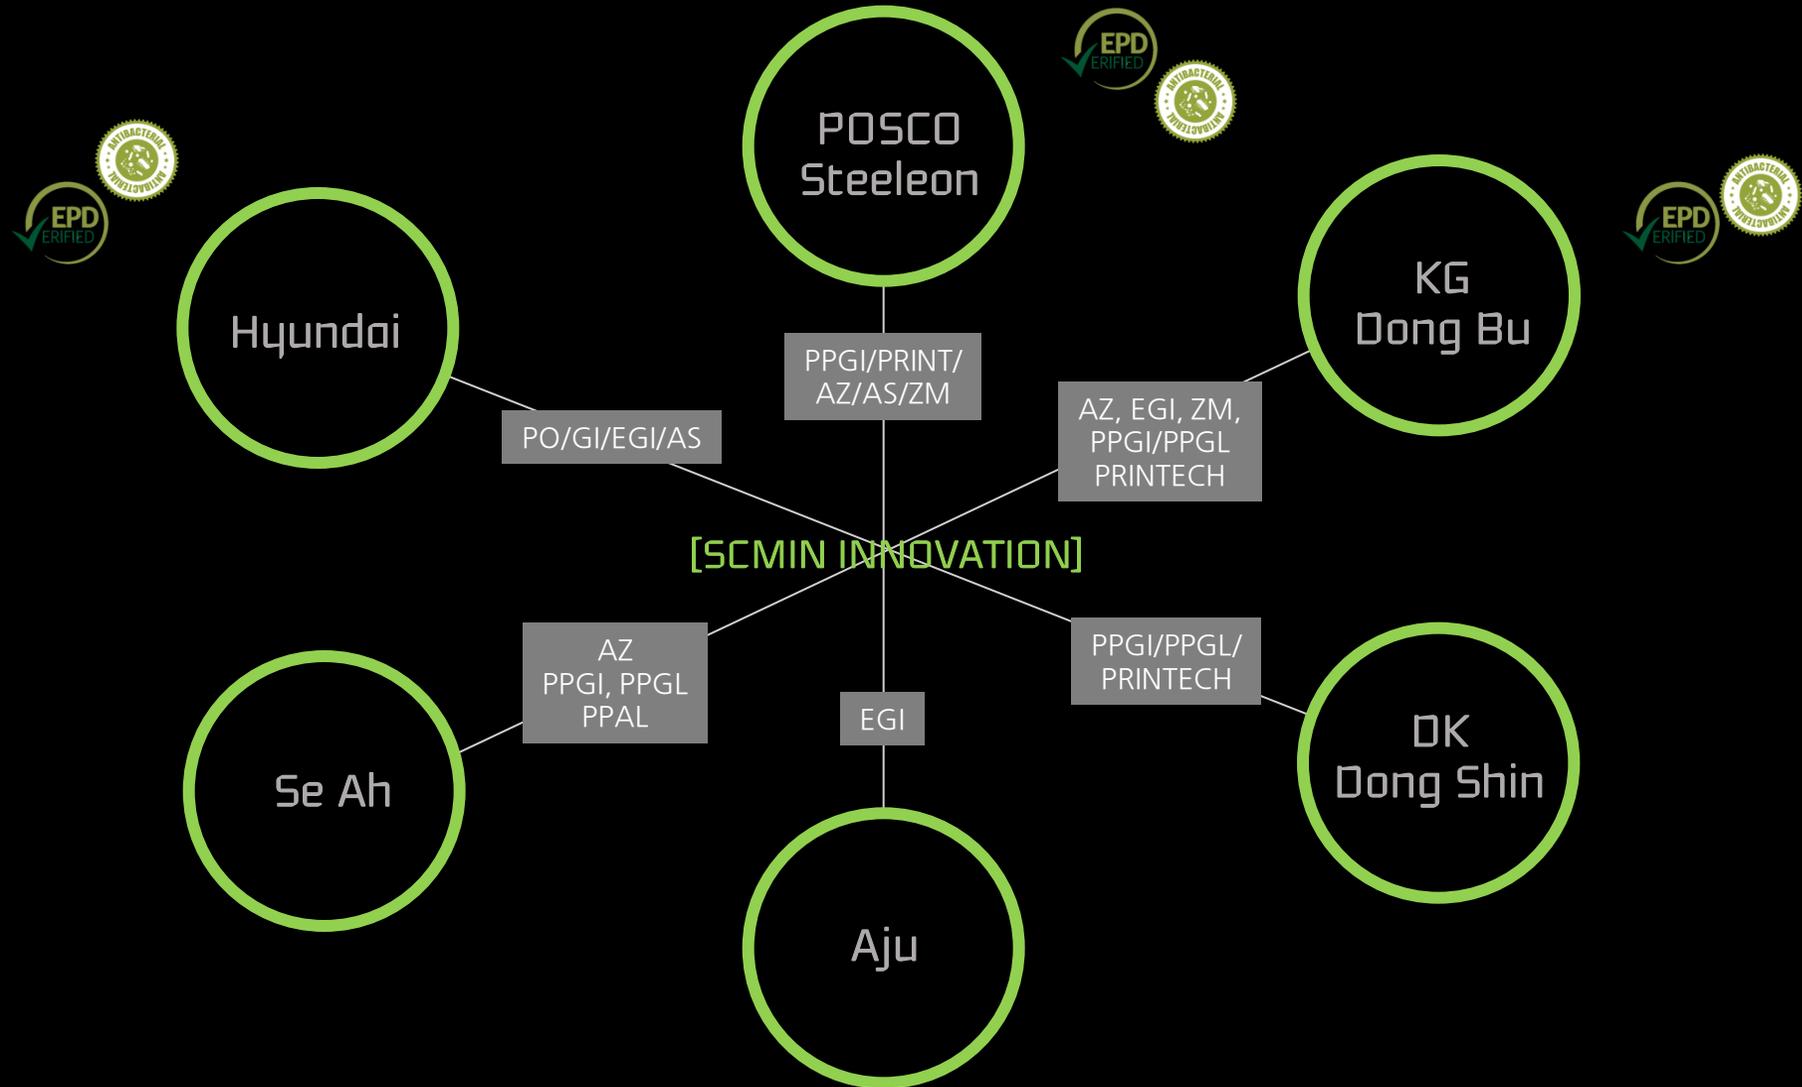

Furthermore, to encourage sales of products in the ventilation field as well as business related to schools, hospitals, and laboratories, we can specifically supply antiviral steel items.

Europe's CBAM(Carbon Border Adjustment Mechanism) policy is about to be implemented in earnest after a pilot period from 2023 to 2025.

SCMIN INNOVATION will take care of the buyer from the point of view of the importer.

Official Steel Mill Partners in Korea

Items and Specifications

Item	Mills	Grade	Coating	Thickness	Width	Remarks
