| <b>Event Format</b>                       | The event will be what's called a Harris Pairs Relay. A score event for a team of 2 runners that involves strategy as well as normal sprint orienteering. So choose your partner well! Each pair will have to collect 16 controls in any order. There will be 8 controls that will need to be visited by both runners, and the other 8 controls can be divided as you wish between each runner in the pair. You get your maps after you have started. The finish must be punched by both runners and the team time is taken from the second person in the pair finishing.           |
