MapRun #4

Mumbles

Wednesday 14th January 2026

EVENT DETAILS

You have 60 minutes, and a map with 30 checkpoints to visit. Your goal is to score points by visiting checkpoints. Score as many points as you can, and get back to the start within the time limit.

You can choose which checkpoints to visit, in any order, via any route. Speed is an advantage, but the fastest runner won't necessarily come out on top. It'll take smart planning to find the shortest route worth the most points.

Download the MapRun app to your phone to use as your timing chip and record your checkpoint visits, load the event using the app. We will provide you with the specially prepared map at the start.

Registration from 6.15pm with a Mass start at 6.30pm, there will be a briefing from the organiser at 6.25pm however if you are new to MapRun, we recommend arriving early to ask any questions.

ENTRIES: **FREE** but please register via Pre-entries: <https://pre-entries.co.uk/dl/events> so we know how many maps to print. Map availability on the night on a first come first serve basis.

BRING – phone, torch, pen and hi viz to wear. Some paths may be muddy and slippery.

You will need a smartphone with the MapRun app installed, this is best done at home.

It is also easier to download the event onto your phone, and watch if it is compatible, at home too. All these events will be named SBOC MapRun and then the location. All you have to do on the night is identify yourself to the organiser or register if Entering On the Night, collect your map and start.

There is a guide to using MapRun [here](#).

SAFETY- You take part at your own risk, you will be running/walking on public streets/paths with traffic. You **MUST** use crossing points where available to cross roads and stop, look and listen! Please be mindful of personal space/social distancing particularly at the start/finish of your run.

JUNIORS – Due to the urban nature of these events, **ALL** under 16's must be accompanied by an adult.

ACCESSIBILITY – We have previously had competitors enjoy these events using wheelchair/mobility scooter. Send us a message in advance and we can provide an annotated map with key obstacles (stairs/narrow gates) highlighted.
