

# Spook-O Details

**Meeting Point:** Singleton Park, at the bottom of the Botanical Gardens, close to the Swiss Chalet W3W ///looked.zealous.cool

**Sunset at 16:50 - A torch will be essential**

**Meeting from 6pm - Start at 6.30pm**

This session combines compass work and map memory in a fun - if slightly chaotic way.

At the start there will be three different map snippets, you must choose a snippet, memorise the route and make your way to that control. At that control there should be another snippet showing you the next control and so forth - but here is the twist, there are dummy controls out there. If you get to a control and there is no map snippet, you must make your way back to control you came from and choose another snippet and control to go to.

How good is your memory? and do you feel lucky?

For safety, younger juniors and newcomers will be given a map with the course on. More experienced members are also welcome to take a map of the course, but keep it in your back pocket if you can, and play the game.

Please email [kerinalake@gmail.com](mailto:kerinalake@gmail.com) to confirm your attendance.

Fancy dress optional but encouraged

**Post Session Social - Vivian Arms Hotel, Gower Road
