## PROJECTS

### *Creating Autodidact Movement*

- Creating website with the aim of expressing myself and encouraging the self-education and creativity of myself and others.
- Creating a Notion template that the entire website is run through, which will eventually be sold.
- Have begun posting weekly YouTube videos to draw traffic to the Autodidact decentralized education movement.
- This project can be viewed here: [Autodidact](#)

### *Self-Instructed Latin Intensive* | Summer 2023

- Designed Latin curriculum using Comprehensible Input method, validated by renowned polyglot Alexander Arguelles
- Dedicated 4-6 hours daily to systematic language study while maintaining full-time employment
- Documentation of this can be viewed here: [Latin Intensive](#)

### *Rank every Object to Discover Values and Wisdom*

- Felt deeply that wisdom was knowing how to properly value every object that one interacts with.
- Spent many hours trying to organize my primary relationships and discover my best relationship to every object.
- Will go through Johnson's *Dictionary of the English Language* to verify that every object has a place.
- The project is far from finished but here is my current best attempt: [My Values](#)

### *Read "Great Books" in Original Language*

- Compiled and organized a list of the greatest works written and crafted a plan to learn their language and read them in the original.
- View this project here: [Great Books](#)
