## Work Experience

Druid AI, Sydney

Dec 2023 - Present

Associate Presales Consultant

June 2024 - Present

- Designed and configured industry-specific AI agents tailored for enterprise-level solutions, enhancing operational efficiency.
- Collaborated with clients to translate business objectives into technical requirements, ensuring alignment and successful implementation.
- Delivered compelling proof of concepts (POCs) in meetings and events, effectively showcasing technical capabilities and reinforcing business goals.
- Trained knowledge bases and large language models (LLMs) to ensure optimal performance and accuracy.

Business Analyst Intern

Dec 2023 - Jun 2024

- Developed multilingual conversational AI agents using the ChatGPT API, enhancing client engagement.
- Crafted quick-start documentation to facilitate implementation for client-side IT teams.
- Created user-friendly landing pages for AI agent showcases, utilising HTML and CSS for optimal presentation.
- Leveraged Power BI to generate analytics reports on AI agent performance and established an SQL database to support chatbot data implementations.

The Frame Group, Sydney

Sept 2021 - Jan 2022

Site Engineer

- Conducted site surveys to assess Wi-Fi signal strength across multiple locations.
- Identified optimal Wi-Fi access points and created detailed virtual mappings.
- Utilised quantitative analysis to generate comprehensive reports on signal performance at each site.
