Dear Shunsuke Kimura,

The U.S. NCP has reviewed the information you provided and also discussed your submission with the Japanese NCP.

The OECD Guidelines note that the NCP where the "issues arise" is often best placed to be the lead NCP on a case. In this instance, it appears that the issues concern a Japanese-based company and you as a Japanese-based individual. As such, the U.S. NCP will defer to the Japanese NCP to consider the issues raised under their procedures and the OECD Guidelines. This concludes the U.S. NCP's consideration of the issues under our procedures.

Thank you,

Office of the U.S. NCP
