

DANGEROUS GOODS SHIPMENTS HANDLING

1. Box requirements

Cardboard type
Double-layer shipping boxes.

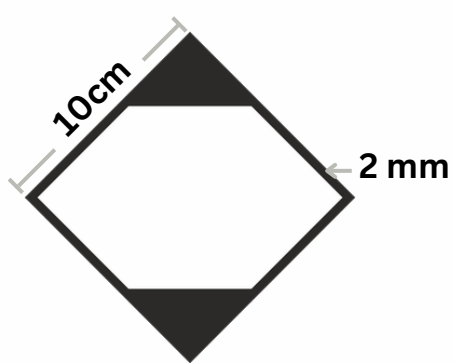

Condition
Boxes should be new and undamaged.

Maximum weight
The total weight must be <30kg for each box.

2. Labeling

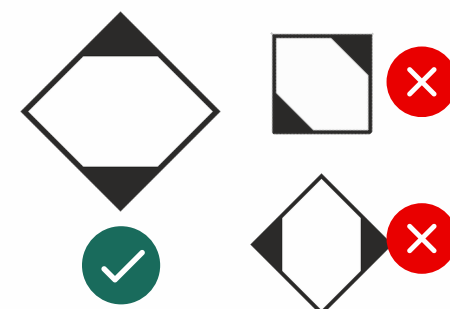

Size requirements
The LQ marking must be at least 10x10cm with a 2mm black border.

Marking type
The marking must be a sticker, not printed paper.

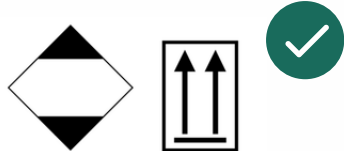

Condition
The markings must be unobstructed and undamaged.

Orientation of Markings
The markings must be oriented as a diamond on the box with the black portions on top and bottom.

Use ADR LQ Markings

The Ship with Qogita service **only uses road freight**, it does not use air freight. **Do NOT use IATA (air freight) markings.**

Use these markings. 🚚

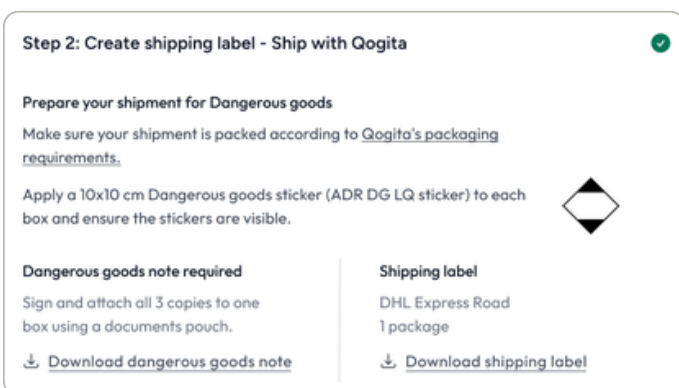

Don't use markings that are not DG LQ. These are Air Freight Markings. ✈️

High Contrast Background

Markings must be on a **high contrast background**.

3. DGN document

Declaring Dangerous Goods (DG)

Select "Yes" in Step 1 if your shipment contains Dangerous Goods, and download the DGN document in Step 2.

Required Documentation

You must sign and attach **3 copy of the Dangerous Goods Notes (DGN)** to box in a sealed pouch.
