Dear Sweetbay Neighbors,

You may have noticed a pressure testing company at the pool yesterday. We have a small leak in the return line which means the pool deck will need to be torn up again for a short period. We have asked that this work be done **after April 25th** so that it doesn't impact the upcoming holidays. (The repair "should" only take 1 to 2 days but we didn't want to chance impacting our time with guests here. 😊)

We look forward to having our village pool used as much as possible during the upcoming holiday!

Here are a few reminders about keeping it enjoyable for all:

- Please remember **"NO GLASS"** within the pool fenced-in area.
- If food/snacks are brought to the pool, please **clean up** after yourselves and remove leftovers and any other garbage **back to your home** so that we don't attract rodents. The garbage there is only emptied once per week.
- If you open up umbrellas, **please close them** before leaving the pool area. We want to avoid damaging them if winds increase.
- **Pool hours are dawn to dusk.**
- Children **under 13** must be accompanied by an adult.

Have fun and stay safe!
