15% Solutions

Solve an individual or collective challenge by listing actions that can be implemented immediately

This activity helps to uncover, around a question related to an individual or collective challenge, the initial steps towards resolution by identifying actions that can be initiated immediately. Each participant first creates their own list of 15% solutions and then shares it within a small group. In return, other group members question the solutions and provide feedback. By the end of the activity, each participant should leave with a clarified list of actions to implement.
