Collaborative Opening

Identify attitudes and/or knowledge regarding a subject

This activity requires identifying four questions related to the topic in advance. During the activity, participants are divided into subgroups to answer one of the four questions. They then move on to the next question until all questions have been addressed. This activity is used both to analyse needs and to assess participants' knowledge, awareness and attitudes towards the topic at hand.

Number of participants: 8 - 48

Estimated duration: 25 mins

Duration	Step name	Notes	Mode and Rights	Content	Tools
5 mins	Activity presentation	**Notes** - Explain the objective and how the activity will unfold. - Present the four questions related to the topic, particularly the one concerning participants' expectations.			
12 mins	Reflection	**Notes** - Organise the distribution of participants among the different tables. - Start the timer. - Make the announcement and restart the timer between each round. **Instructions** - Answer the question at your table. You have 3 minutes. - Turn to answer the question at another table for 3 minutes. - Repeat until you have answered all the questions.		Notes - Collaborative Opening - Reflection	00 h 03 m 00 s Change tables in a clockwise direction.
8 mins	Restitution	**Notes**			Come back to the main table.

- Send the announcement.
- Project the various collaborative notes onto the central table for presentation.

Instructions

- Share your comments on the answers given to the various questions.
- Take a moment to set yourself personal goals that are relevant to the topic discussed.
