**Please include your
central id in the email**

TROUBLESHOOTING ETHERNET CONNECTIONS

*Lights get updated when a sensor sends a message

Guide for IT Support

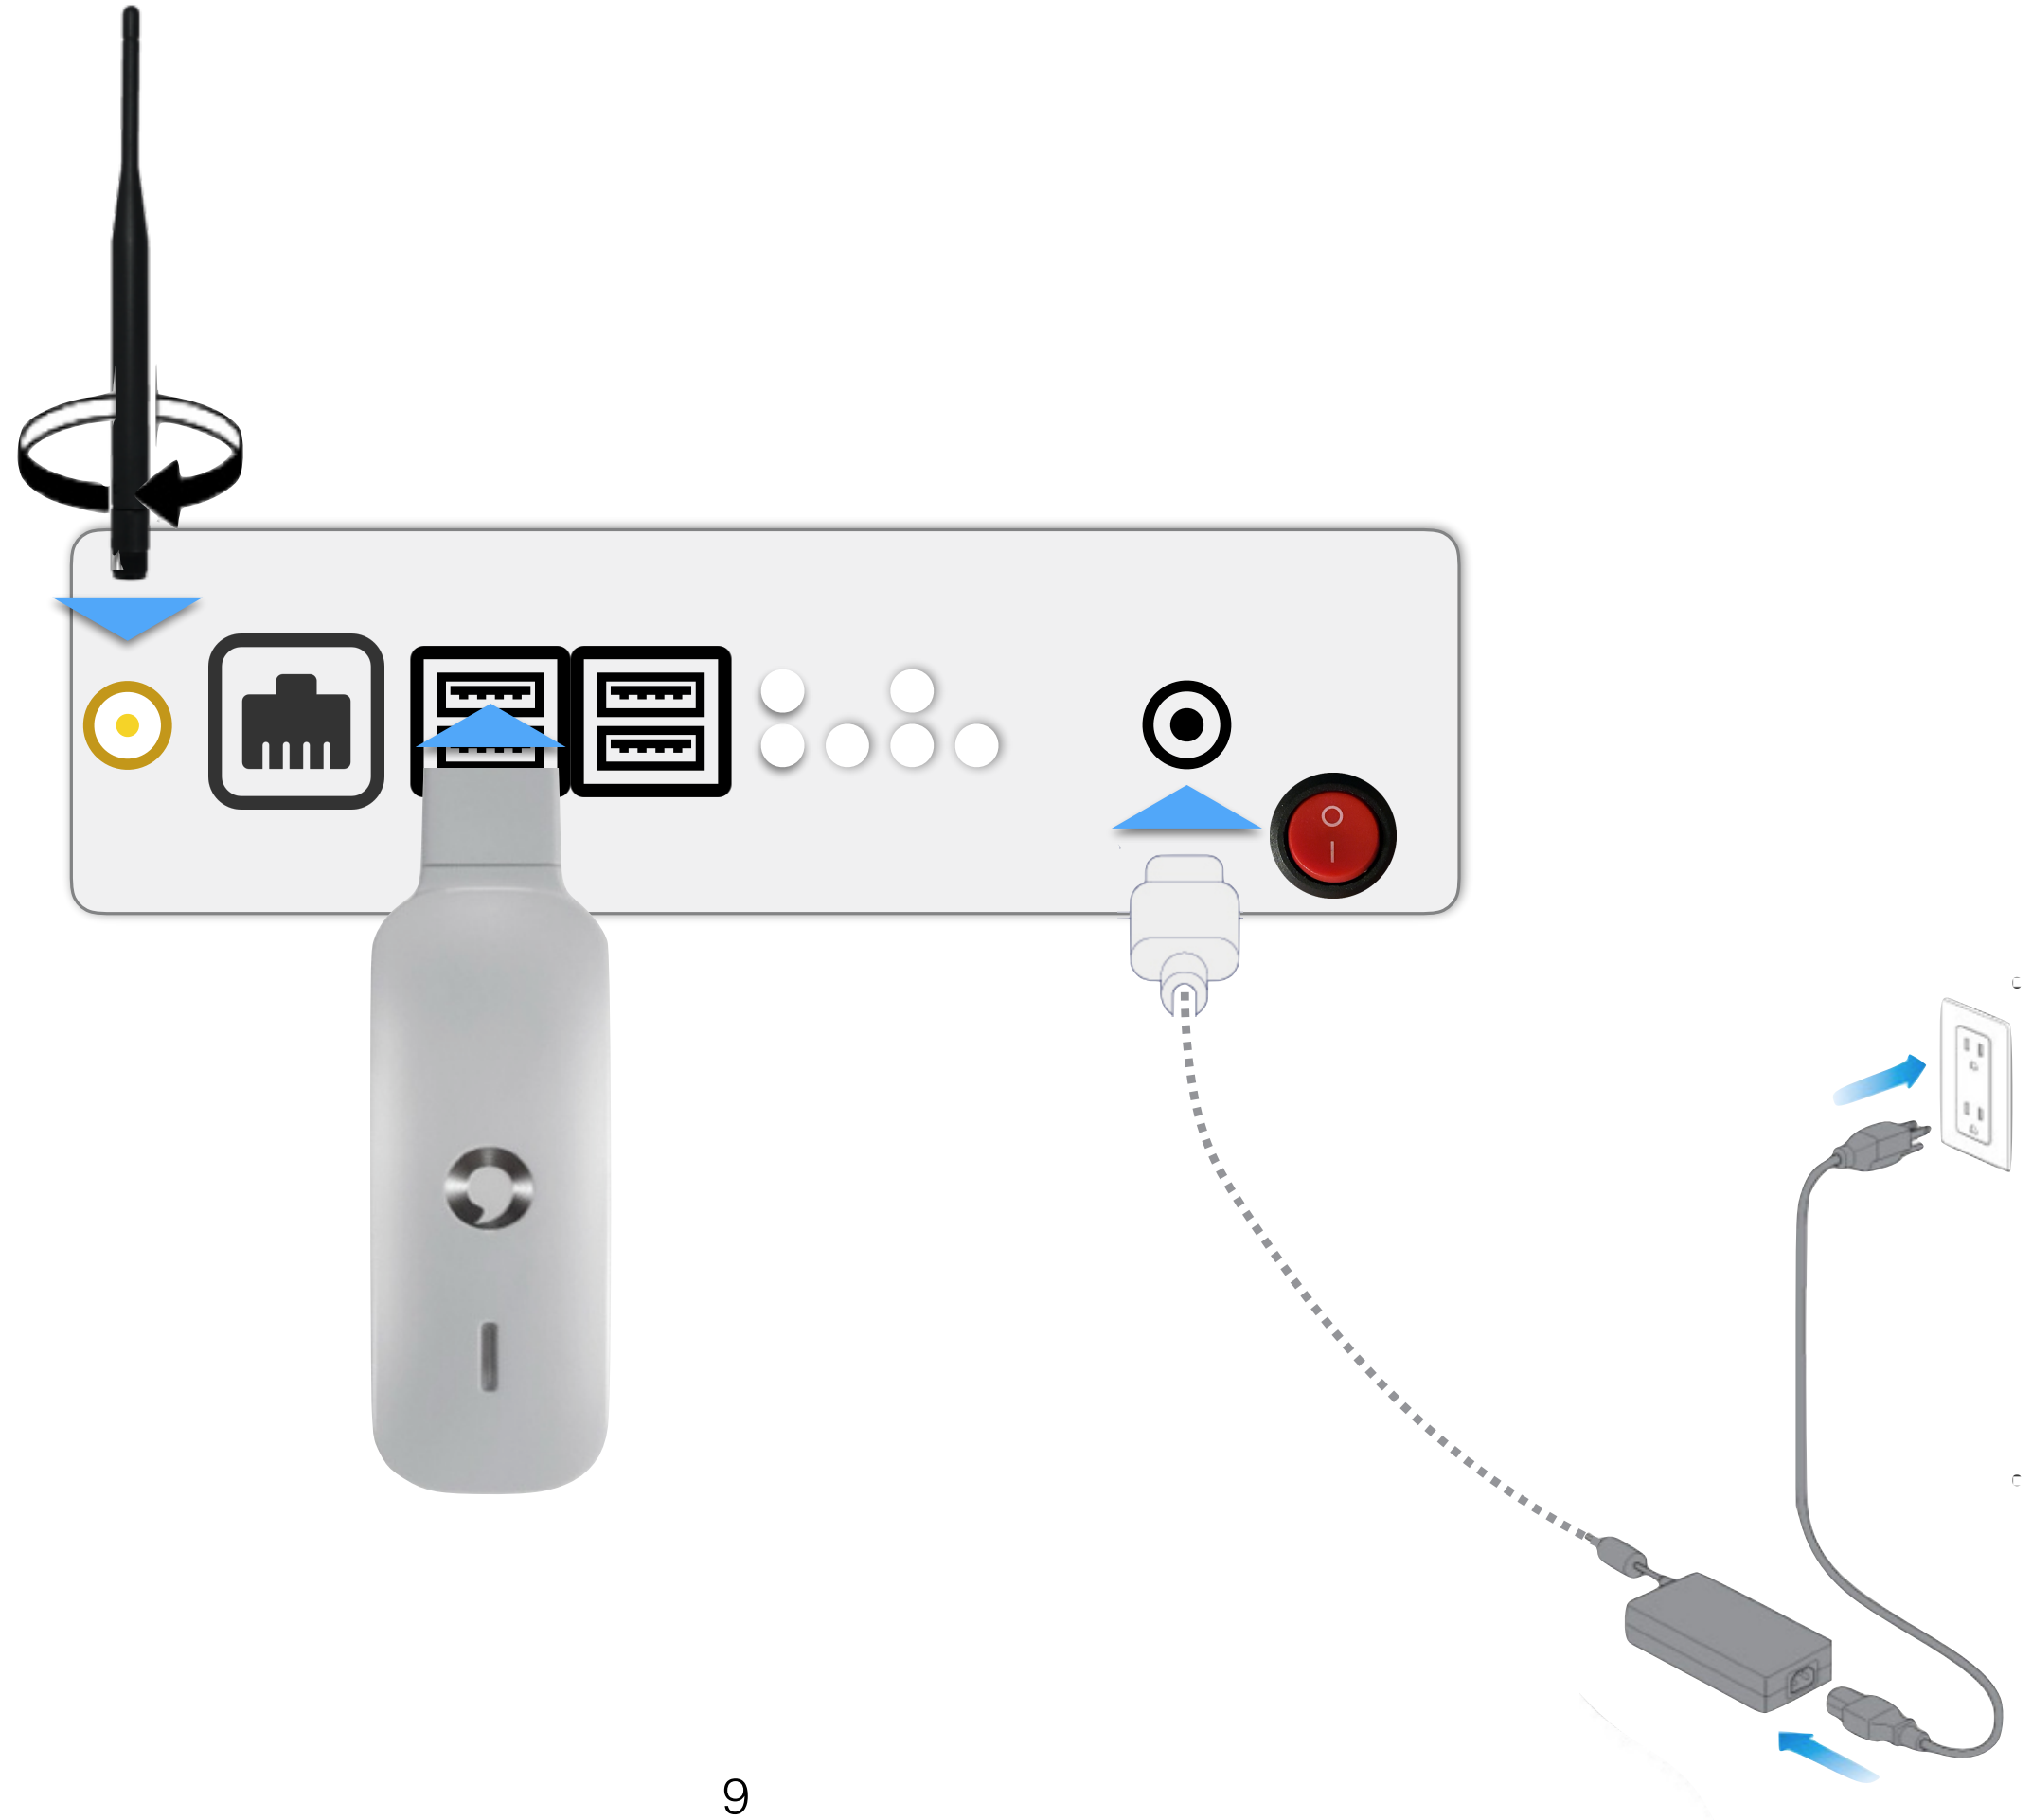

Give this to IT together with a photo of the central ID sticker, they will know what to do with it

1. Please **enable DHCP** (*you can find the MAC address in the Central sticker*)
2. Please **open ports**:
SSH/VPN 22 [Incoming]
MySQL 3306 [Outgoing]
OR setup NAT

Dear IT personnel: you can always reach out at **support@sigrow.com**

4G Connections

For those who doesn't want to modify firewalls
