## **Resource Analysis**

## Name all of the resources you have studied and answer the questions in each column.

Name of resource	ls it free?	How much does it cost?	What are the access requirements?

## Resource Circles

**Directions:** Use the Resource Circles to make a diagram of resources that can provide support. First, write your name in the center circle because you are your own greatest resource. Next, in the inner circle, write the names of people you know well and are resources to you in your life now such as: family, friends, teachers, neighbors and co-workers. Finally, in the outer circle, write the names of community agencies and services that can help you now and in the future.
