

RESIDENTIAL STUDIO

Media & collaboration pack

Architecture, interiors and ideas for healthier, brighter everyday living.

EDITORIAL · SPEAKING · WORKSHOPS · CREATIVE PARTNERSHIPS

Australia · 2026

Considered homes, shaped around real life.

Residential Studio is an architecture and interiors practice creating new homes, renovations, additions and interiors that bring together thoughtful planning, natural light, fresh air, enduring materials and a meaningful connection to landscape.

“Architecture that feels considered rather than complicated.”

OUR FOCUS

Healthy, sustainable homes; calm and functional planning; architecture and interiors considered as one connected experience.

WHERE WE WORK

Lake Macquarie, Newcastle, the Hunter, Central Coast, Port Stephens, Nelson Bay and Sydney, with virtual consultations further afield.

Located on Awabakal Country. Led by NSW Registered Architect Barbara Busina.

Meet Barbara Busina

Barbara Busina is the Founder and Principal Architect of Residential Studio, a NSW Registered Architect with more than 18 years of experience.

Barb brings architectural expertise, interior sensibility and an understanding of the everyday realities of family life to every project. Her approach is warm, curious and collaborative—making room for both imaginative possibilities and practical questions.

She speaks clearly about the decisions that shape a home: how it feels, how it functions, what a site can support and where considered investment makes the greatest difference.

ROLE

Founder + Principal Architect

REGISTRATION

NSW Registered Architect

EXPERIENCE

18+ years

PRACTICE

Architecture + interiors

APPROACH

Healthy, practical, personal

A practical, human voice on better homes.

Available for editorial interviews, expert commentary, panels, podcasts, presentations and workshops.

Ideas we can explore together

01

HEALTHY HOMES

Natural light, ventilation, thermal comfort, moisture awareness, materials and wellbeing.

02

RENOVATING WELL

Finding the real problem, improving layouts and making confident early decisions.

03

DESIGNING FOR FAMILY LIFE

Flexible planning, storage, privacy, gathering, retreat and homes that evolve.

04

SITE + FEASIBILITY

Orientation, constraints, approval pathways and identifying a site's opportunities.

05

ARCHITECTURE + INTERIORS

Creating a coherent experience from planning and built form to materials and joinery.

06

AI + HOMEOWNER IDEAS

Using AI-generated concepts and visual inspiration as a useful starting point—not a substitute for architectural thinking.

Thoughtful partnerships, clearly shaped.

MEDIA + EDITORIAL

Interviews, expert comment, project stories, written contributions and press features.

SPEAKING + PANELS

Conferences, industry events, podcasts, panels and community conversations.

WORKSHOPS

Practical sessions for homeowners, students, teams and industry groups.

SOCIAL COLLABORATIONS

Architect-led educational content, product stories and values-aligned creative campaigns.

INDUSTRY PARTNERSHIPS

Builders, trades, consultants, suppliers and developers working toward better residential outcomes.

EDUCATION + CAREERS

Student learning, work experience, internships and future studio opportunities when available.

START A CONVERSATION

Let's make something useful and memorable.

For media, speaking, workshop and collaboration enquiries, please share your idea, audience, timing, location and intended format.
