

Email to President of Blockchain club to see if they would host event to promote Harmony and we sponsor food/referral tokens:

Hey _____,

My name is Hannah and I work on the marketing team at 1Wallet, a social digital wallet for crypto assets, investment and identity powered on the Harmony blockchain. We've been keeping up with (insert blockchain club name) at (university name) and wanted to reach out about a collaboration opportunity.

Our mission to drive blockchain adoption by building bridges to all networks is heavily aligned with your club's purpose of empowering students to learn and build in Web3. The Harmony blockchain is scaling Web3 infrastructure of DeFi and NFT by bringing ZKPs to production and decentralizing governance by funding thousands of DAOs. We have been active in the blockchain industry for a few years and would like to see how we could support (insert blockchain club name).

Would love to schedule a call this week to introduce more of our vision and what a partnership could look like!

Best,
Hannah
