

Antana

Metal-backed screen fabric

Antana Metal-backed Screen Fabric

Outward views with maximised reflective properties. Antana combines the best of both worlds, inviting natural daylight in whilst reducing glare and thermal gain and allowing for outward views. The metal backing also provides excellent insulation to keep heat in when the sun goes down.

 Weight	401g/m ²
 Thickness	0.50mm
 Flame retardancy	BS 5867 – 2, Type B
 Material composition	64% PVC, 36% Glass
 Moisture resistance	Yes

Ideal for: Evolve Zero roller blinds and rooflights.
