# Marketing Strategies from (Big) Data

1. What data? How to get?
2. How to make sense of the data?
3. How to drive your business goal?

# How to drive your business goal?

# Example goals

1. Personalised experience for customer when visiting a store
2. Enhanced interactions and retentions by emails and messaging
3. Pricing responsive to customer behaviour in maximizing revenue

# Personalised store experience

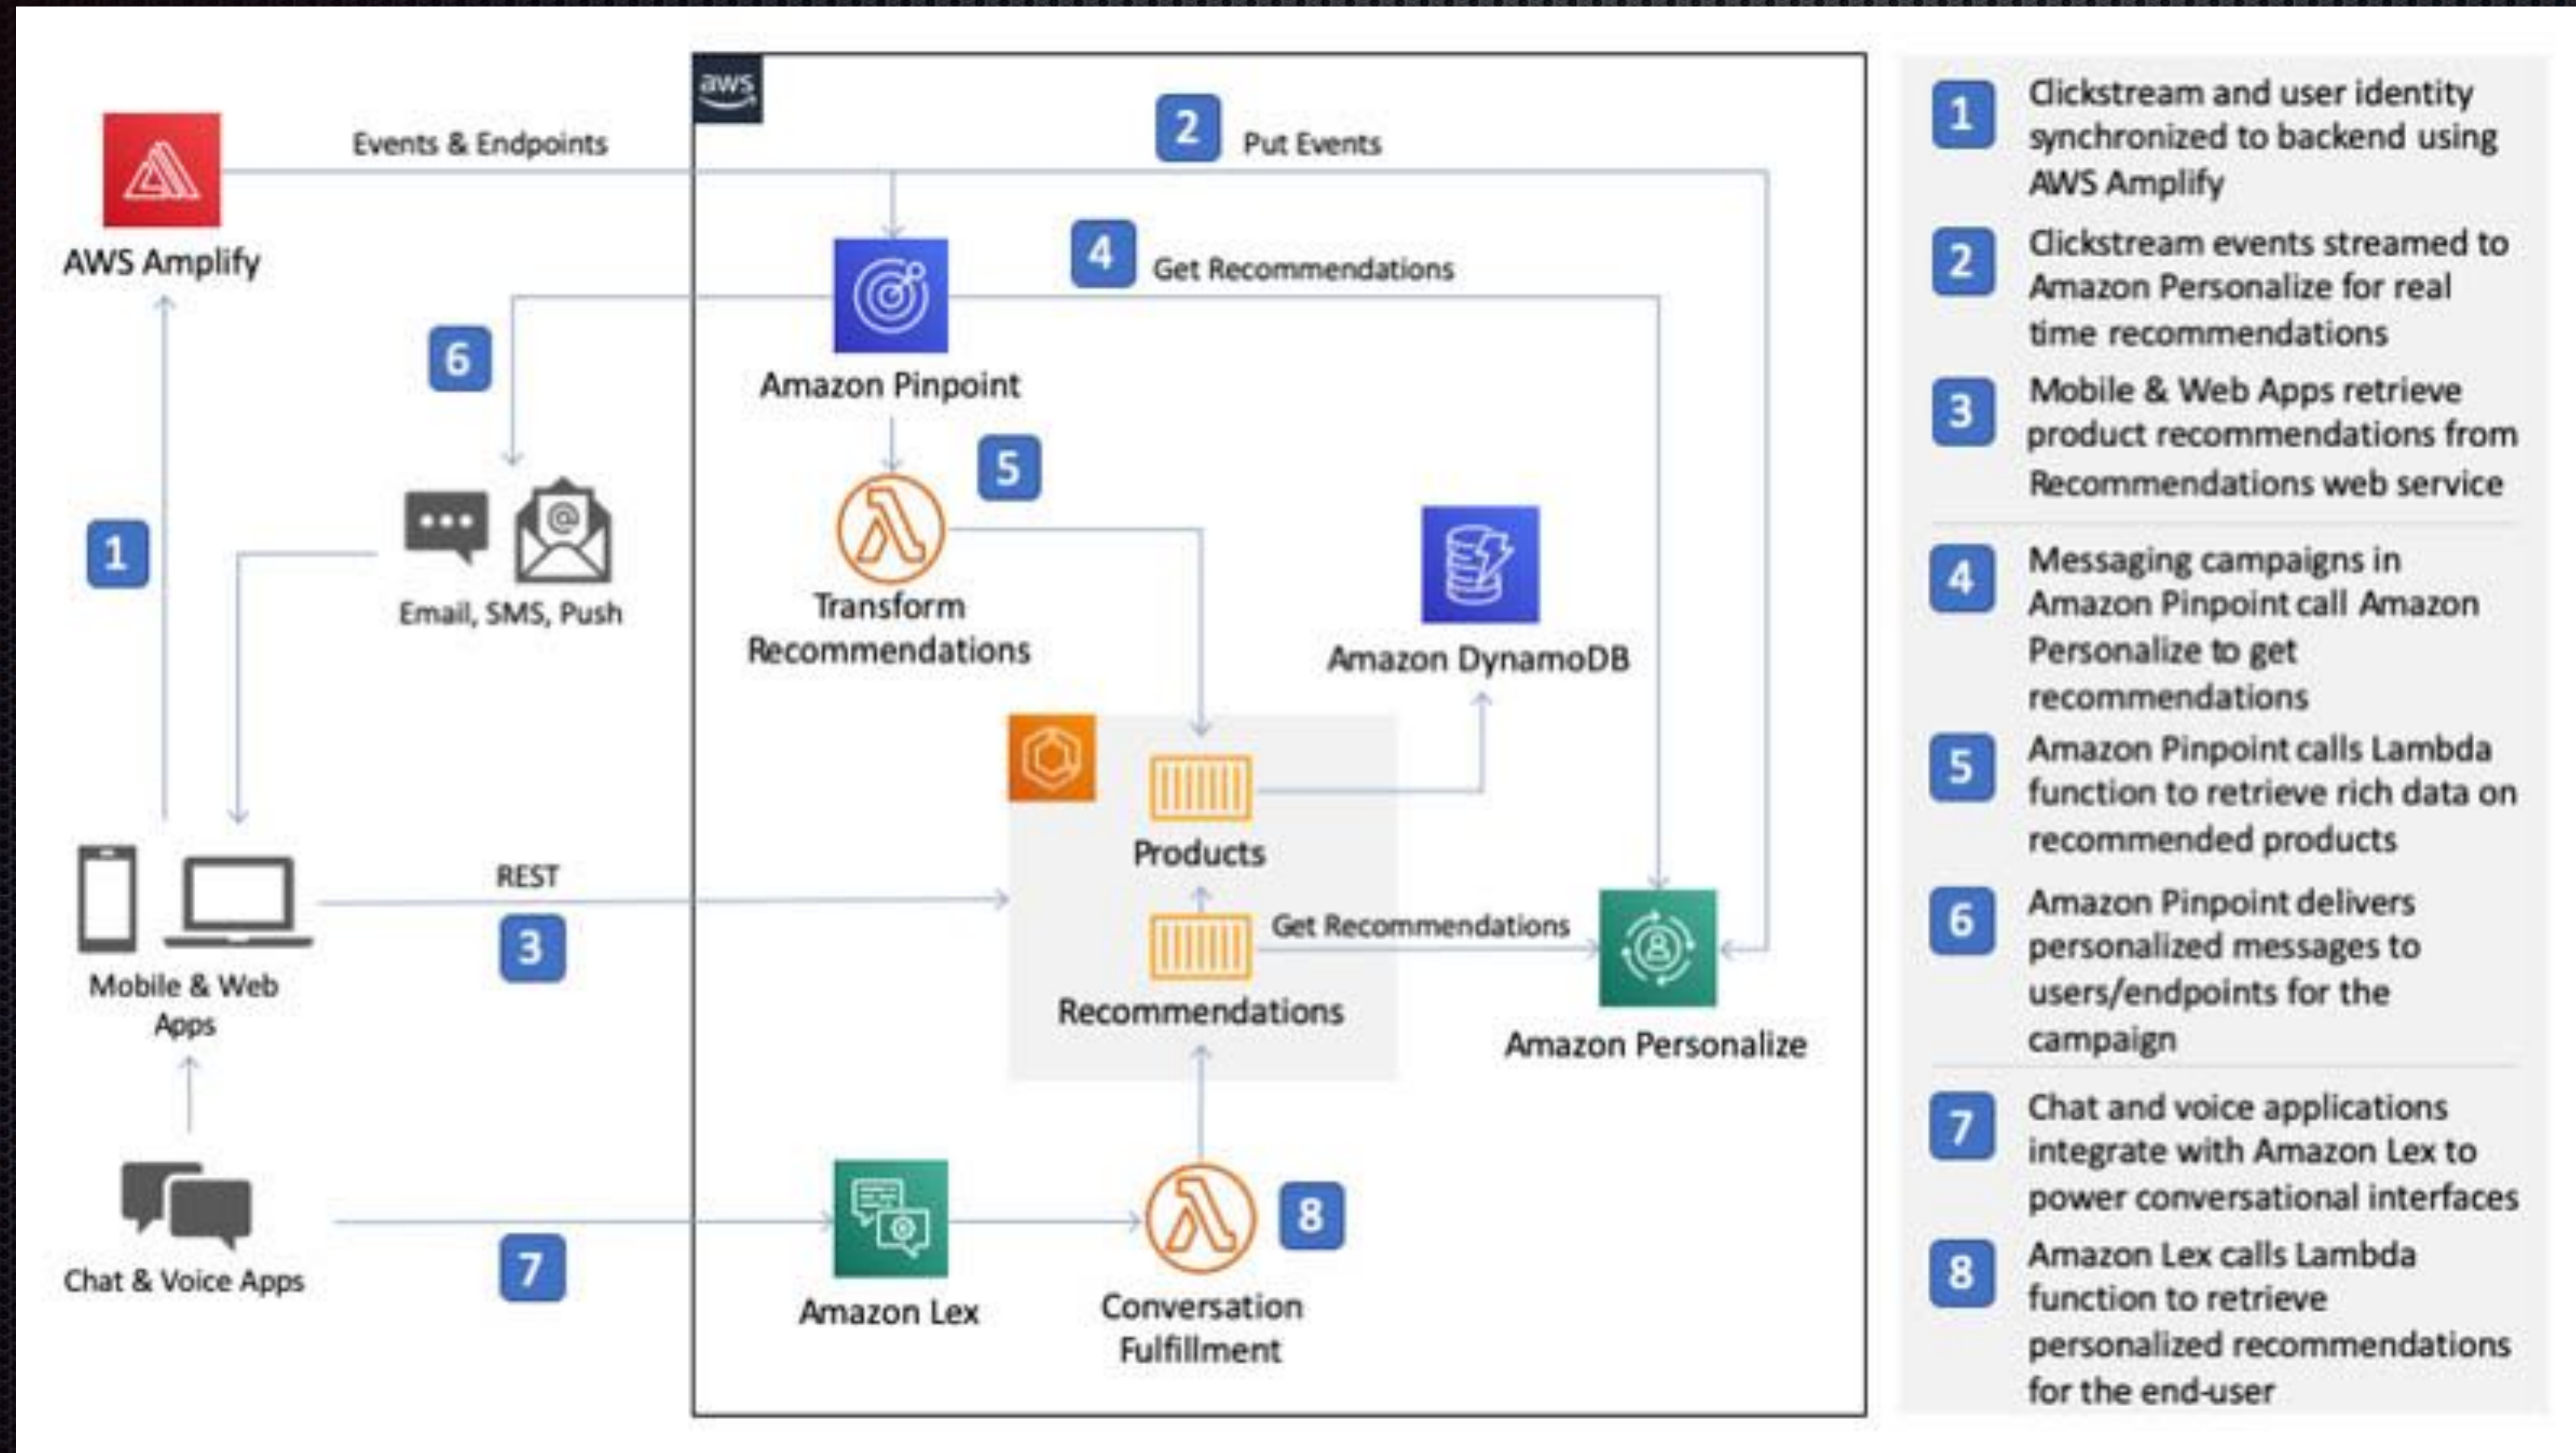

- ✦ For product recommendations to work in your favor, you must make sure that the suggestions you offer are relevant and data driven. So, how do you deliver the most accurate recommendations to your customers that match their interests and needs?

- ✦ Source

# Personalised store experience

# Example goals

1. Personalised experience for customer when visiting a store
2. Enhanced interactions and retentions by emails and messaging
3. Pricing responsive to customer behaviour in maximizing revenue

# Enhanced interactions

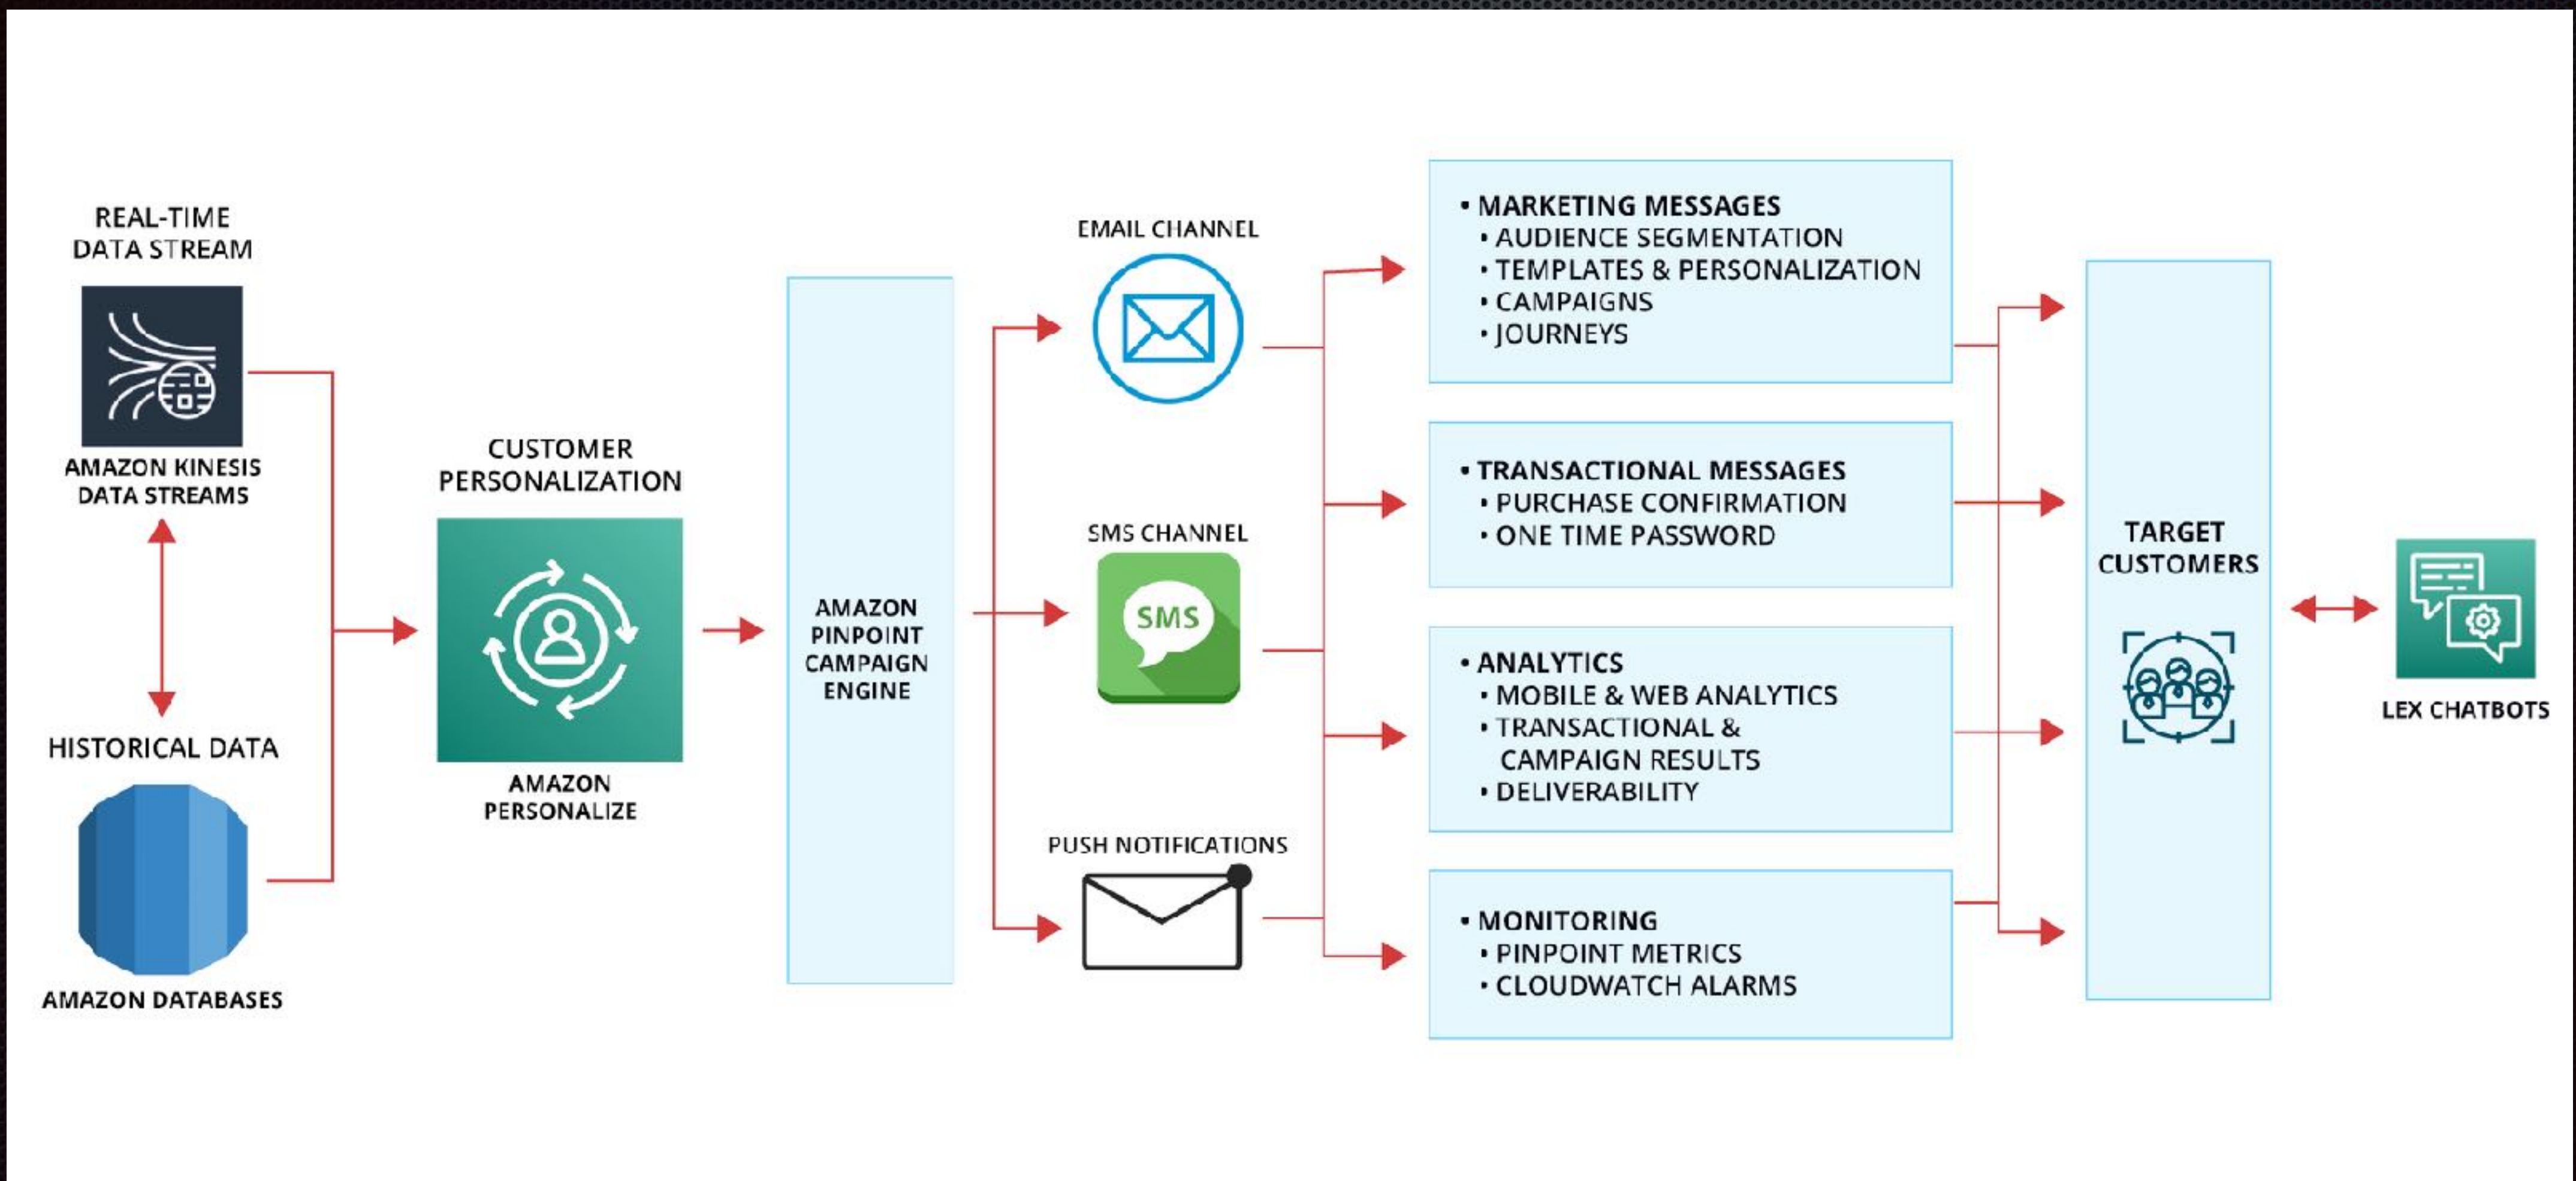

- ✦ Omnichannel marketing acknowledges and addresses the fact that the modern customer is no longer confined to a single platform, and therefore, strives to deliver a smoother buying experience to customers regardless of the channel, platform or the stage of the buyer's journey.

## OMNICHANNEL MARKETING

# Enhanced interactions

# Example goals

1. Personalised experience for customer when visiting a store
2. Enhanced interactions and retentions by emails and messaging
3. Pricing responsive to customer behaviour in maximizing revenue

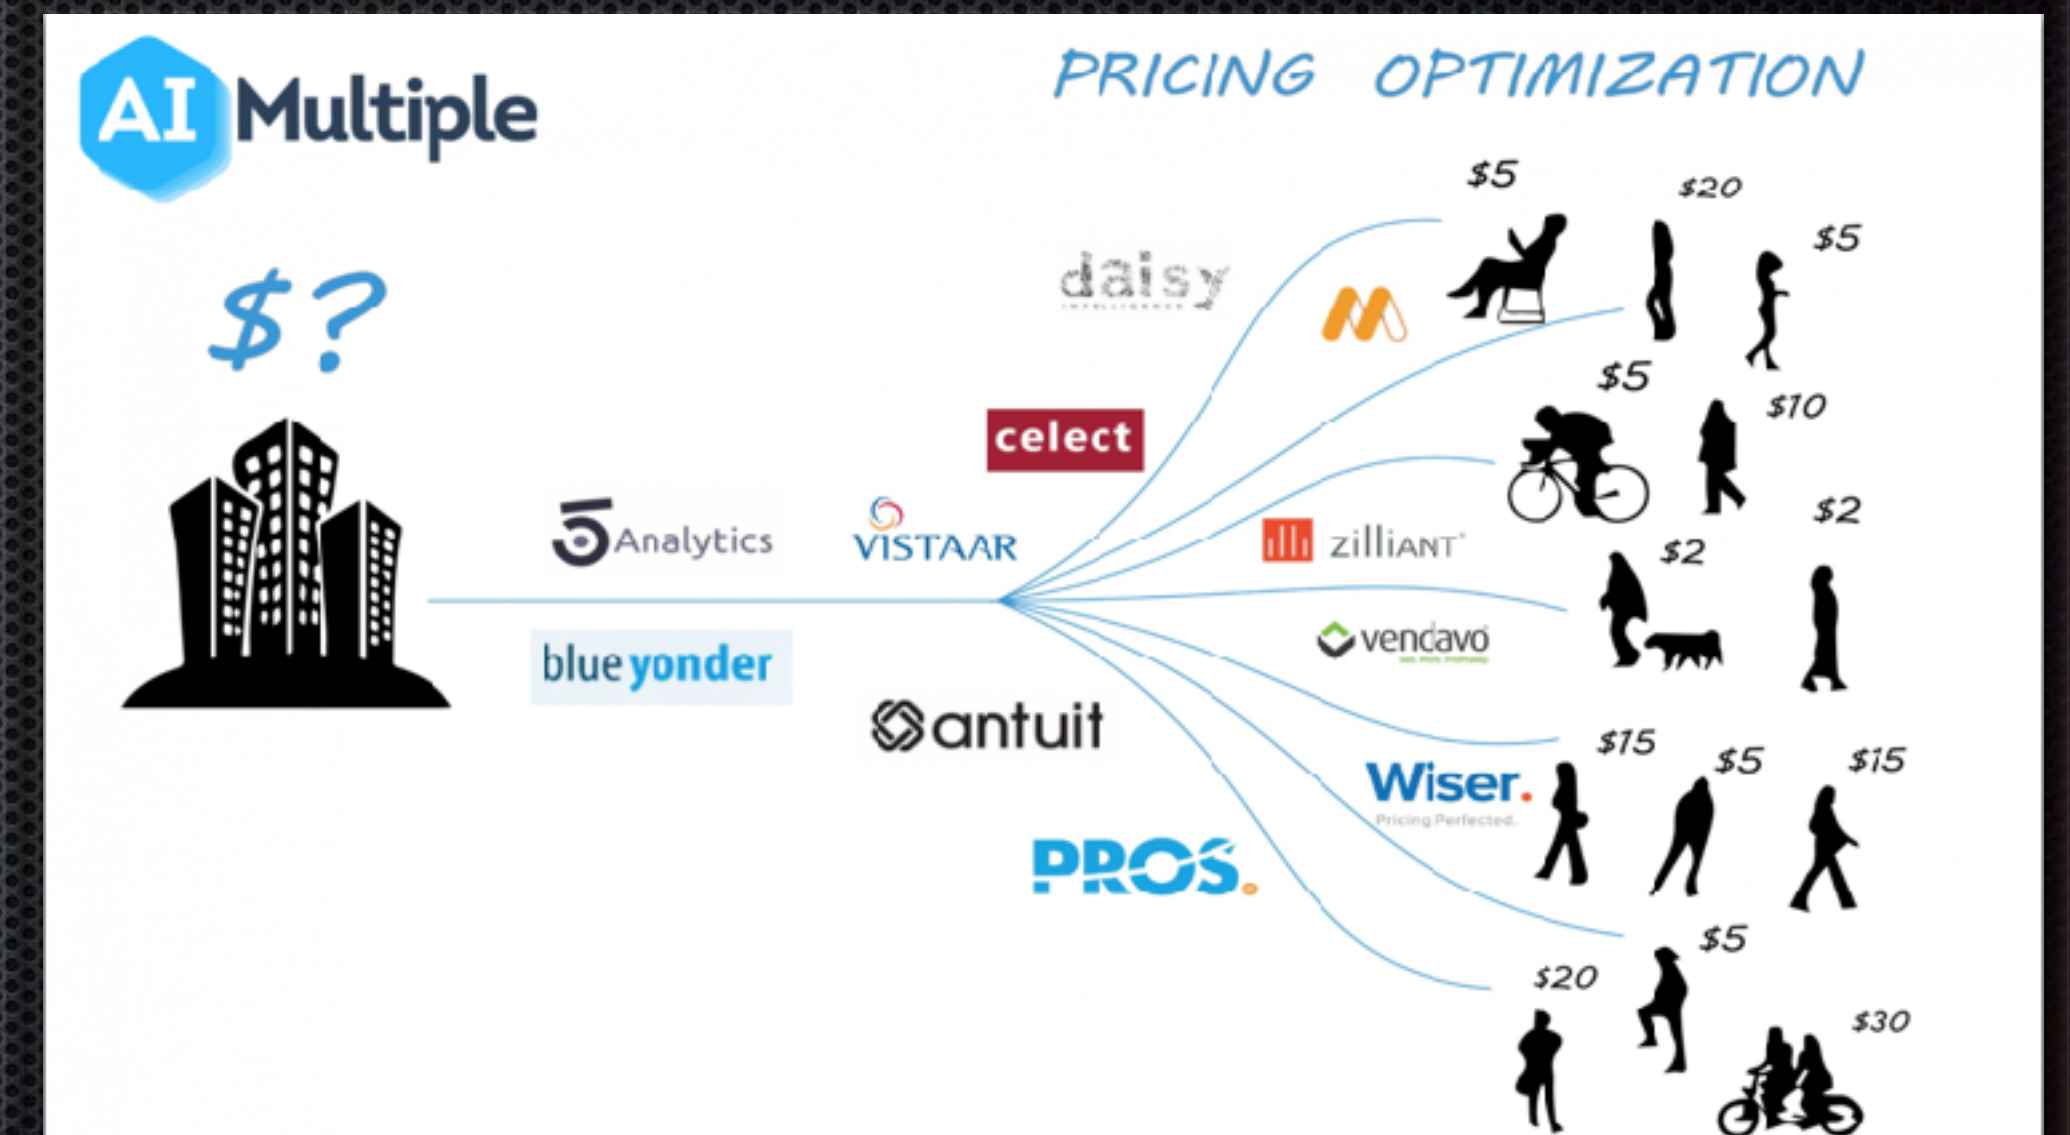

# Maximizing revenue

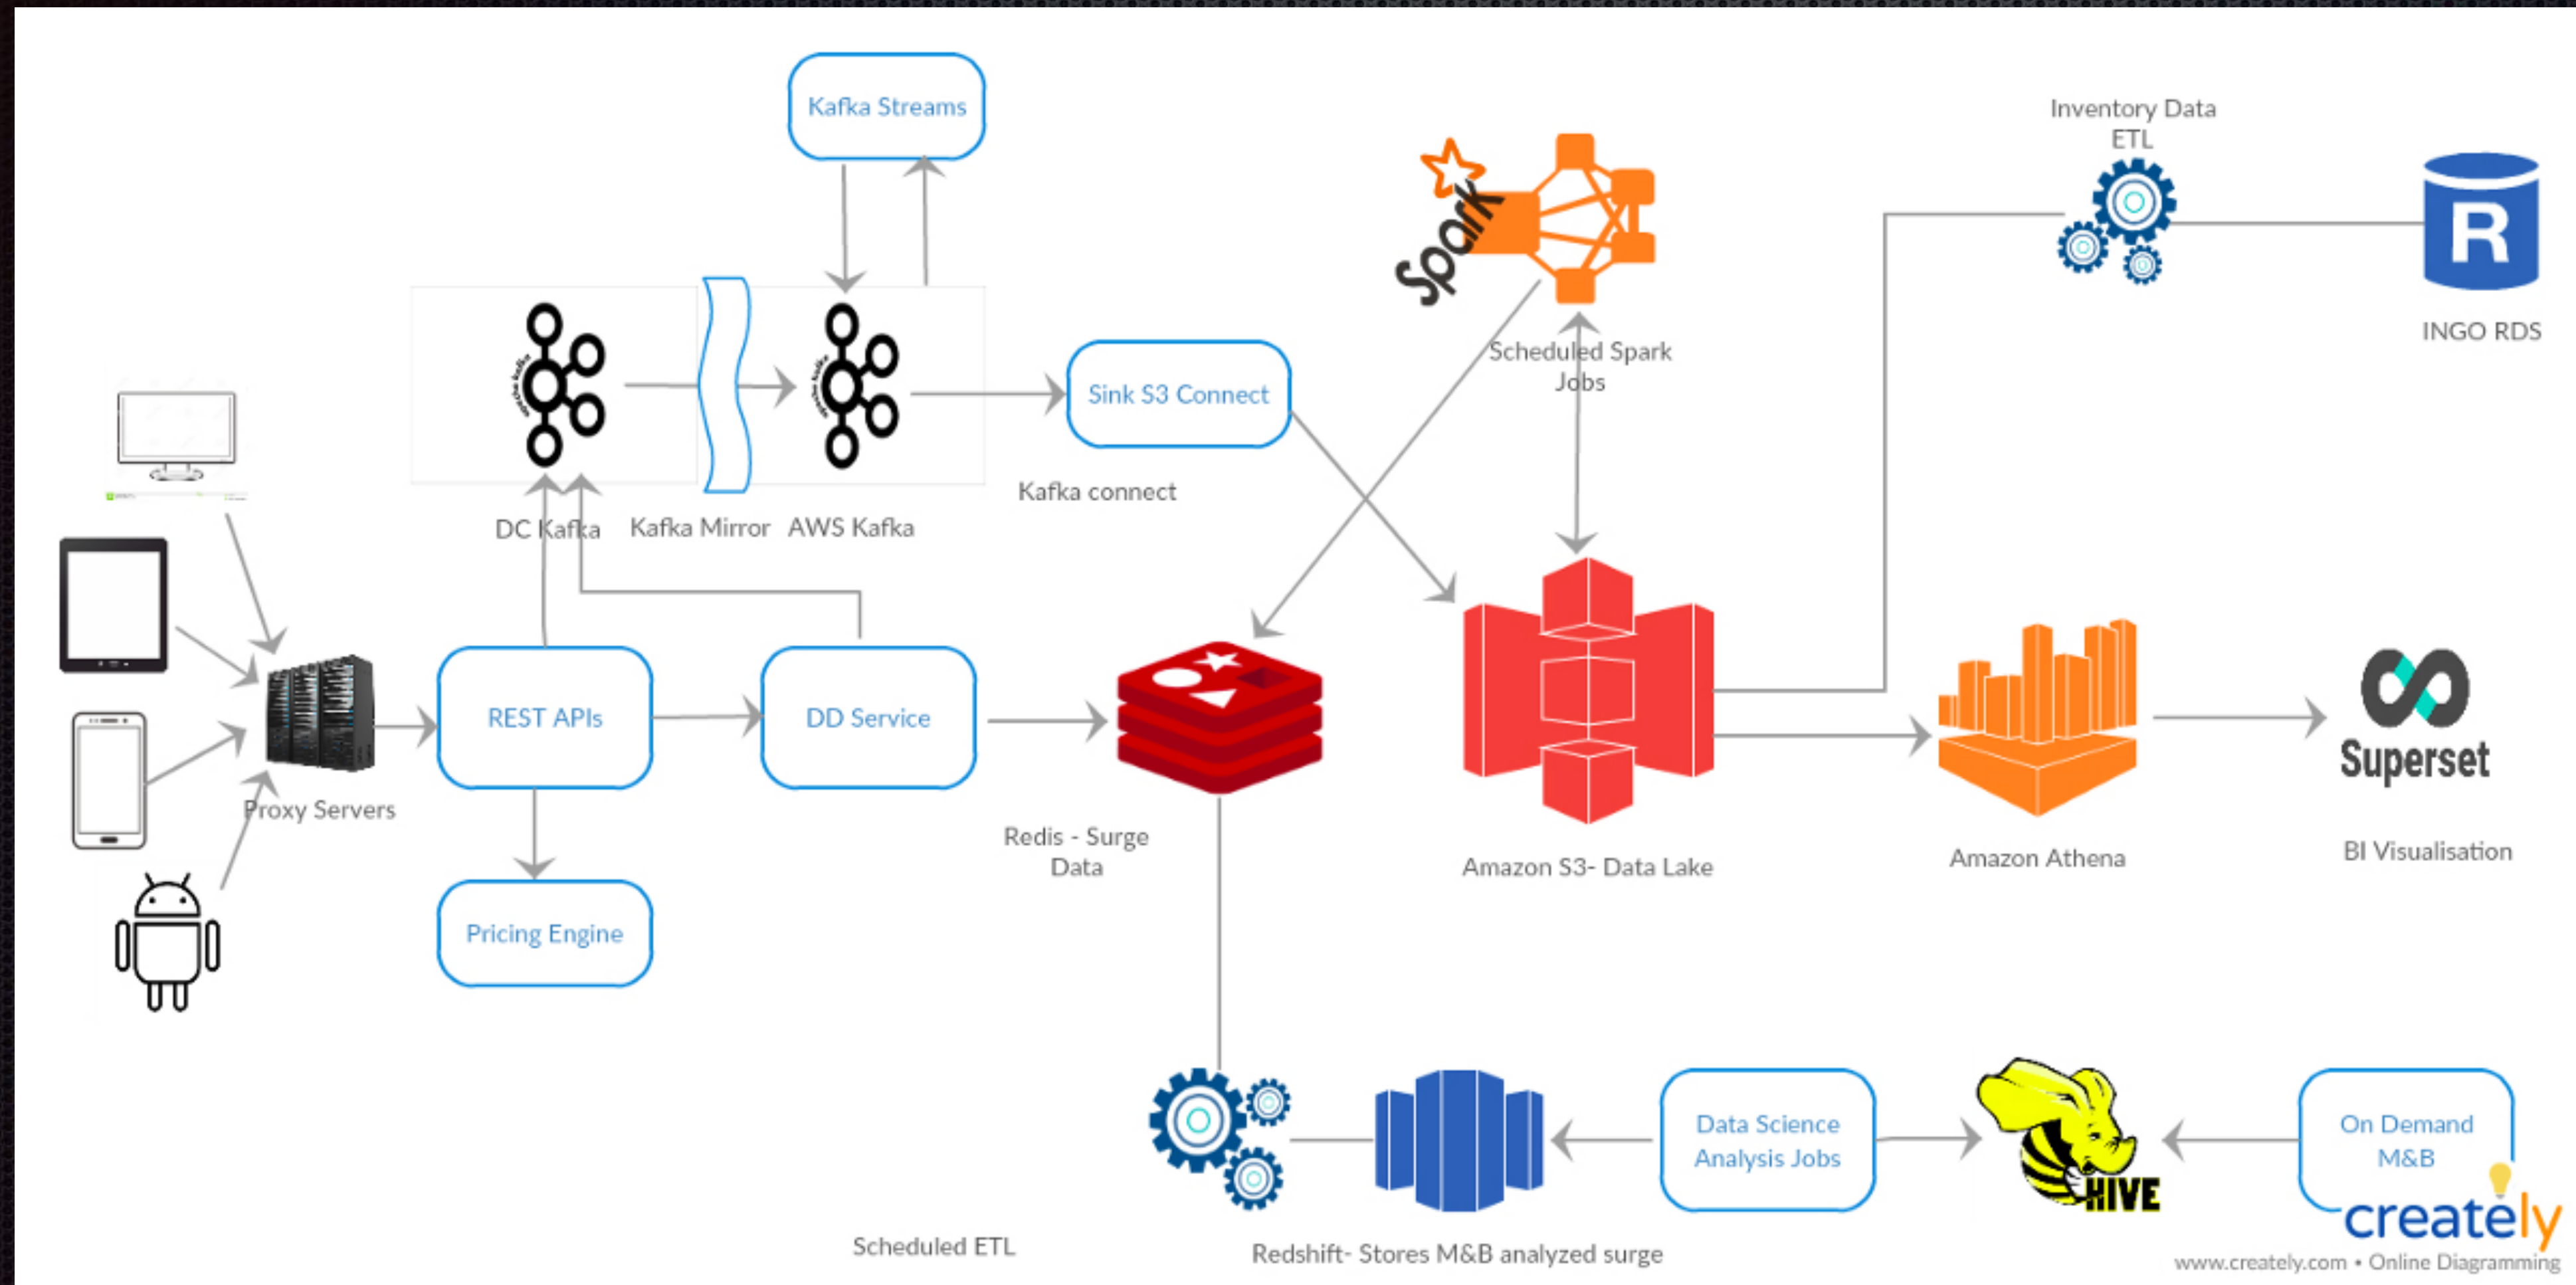

- ❖ Dynamic pricing, also called surge pricing, demand pricing, real-time pricing or algorithmic pricing is where the price is flexible based on demand, supply, competition price, subsidiary product prices. Price may even change from customer to customer based on their purchase habits. Dynamic pricing enables suppliers to be more flexible and adjusts prices to be more personalized.
